WANT MORE BALES TO THE ACRE? ALWAYS USE ARMOUR'S FERTILIZERS

To provide a *BALANCED* plant food ration for cotton soils and to help them produce quality and quantity yields, ARMOUR produces reliable Big Crop Fertilizers in a nearby factory.

These premium quality cotton producers are formulated especially to work with soils in this section. The essential major and minor plant foods in ARMOUR'S give cotton a balanced diet and help the crop to utilize the soil's own foods more efficiently. This results in lower growing costs and more profits for the grower.

It's not unusual to find growers getting a bale and a half or two bales to the acre when they use ARMOUR'S BIG CROP FERTILIZERS. Successful growers all through the State have proved that ARMOUR'S always helps make every acre do its best.

For a greater yield of higher quality cotton, use ARMOUR'S BIG CROP FERTILIZERS — this year and every year. See your Armour Agent for your requirements.

ROBERSON'S
 "On The Corner"

In loving memory of my dear father, Alexander L. Copeland, who passed away five years ago:

Always in my thoughts,
 No matter where I go,
 Always in my heart,
 Because I love you so.

When evening shadows fall,
 And I am sitting all alone,
 In my heart comes a longing
 If my daddy would only come home.

A precious one from earth is gone,
 A voice we loved is still,
 A place is vacant in our hearts
 That never can be filled.

For those who have a father,
 Greet him with tender care,
 For you never know his value
 Till you see his vacant chair.

His Children:
 MRS. E. D. BYRUM,
 RICHARD COPELAND.
