Some Facts About Television

As pioneers in the radio and television business in this area, and with the experience of having operated the first TV radio in the Albemarle, we feel we owe our many potential customers answers to some of their questions about this new entertainment medium.

Records of TV reception since June 6, 1949, indicate that if you live in a favorable location you can expect perfect reception about one-third of the time. This condition is expected to prevail until WTAR-TV goes into regular broadcast service which, according to latest information, will be next April 1. After that time reception in this area should be perfect.

Television is now proving to be a source of good, clean, enjoyable entertainment, and a medium of information, educational values and news . . . right in your own home.

We are already selling and installing Television Sets and have received favorable reports on most sets in operation.

We are authorized agents for Motorola, Zenith, Emerson, Westinghouse and Admiral TV Sets. Costs for these sets, installed, begin at \$269.95 for seven-inch screen sets and \$359.95 for ten-inch screen sets. Orders are now being taken by us for delivery of new TV sets.

We have made ourselves acquainted with the problems likely to be met in the installing and servicing of TV Radios, and have already stocked parts for servicing television radios.

WE DO NOT contemplate, at this time, servicing or installing any TV Sets not sold by us.
