Two More Days
 Perquimans County residents who as yet have not had a free chest X-ray made by the Health Department still have two days to obtain one. The big mobile X-ray units, being used in the survey will operate in this county through January 14.

The unit which has been stationed in Hertford for the past two weeks has been busy and hundreds of people have applied for an X-ray. We urged all those who have not had an X-ray taken to do so before the program closes tomorrow.

Our District Health Department has gone to considerable trouble and expense to carry on this huge health survey and it deserves the cooperation of every resident.

If you have not had your chest X-rayed... do it today.

How's Your Health?

Just as a great business takes an inventory to ascertain its condition, every individual at least once a year should seek to find out the true status of his or her physical condition.

We hear much talk about regular examinations to discover the existence of dread diseases in order that proper treatment may safeguard the body and restore it to health. Certainly, this is sound advice for all readers of The Weekly to follow.

If you haven't had a physical check-up lately, go to your family doctor and persuade him to look you over. See if your heart and other vital organs have been impaired. If there is anything wrong, follow the advice that you get and see if you can't repair the damage that has already been done.

Drivers Should Respect Rights Of Pedestrians

Every driver of a motor vehicle has a tender regard for the rights of the pedestrian when he happens to be the pedestrian. On such occasions, they are in a position to understand that approximately 65 per cent of all persons injured or killed in automobile accidents are pedestrians.

After a narrow escape from some driver, they are then willing to believe that a pedestrian is entitled to safety and that whether he is in the right or wrong, the driver should protect him.

We hope that every automobile driver in Perquimans County who reads this, will make up his or her mind to drive carefully, having regard for the presence of children in the streets, the location of schools and playgrounds and the natural tendency of children to ignore danger of which they are not fully aware.

Let's all give a thought to the children particularly. They furnish one-third of the fatalities that result from automobile accidents. They are entitled to safety and if drivers do not give it to them, the State should step in and by laws strictly enforced, to see that the children of North Carolina have as nearly absolute protection as can be obtainable.

Use The Newspaper

Not so long ago, a circular was sent out to store managers by a large chain which operates retail stores all over the United States. We were interested, naturally, in the subject matter discussed with the store managers and believe our readers will be, too, and so we print it, in part, below:

"(1) Do you want to be certain of reader interest? Then use the newspapers. Many a circular receives only a glance, while the local newspaper, with hundreds of general news items, is read thoroughly from first to last page.
 "(2) Do you want representation in the same 'shopping window' the other merchants of your town use? Then use the local newspaper. Women, the purchasing agents of the

home, read newspaper advertising daily, whereas many a circular is tossed into the waste basket without a glance.

"(3) Do you want fast action? Then use the newspaper. The ad that you run today, if it contains real merchandise news, will bring immediate results tomorrow. You can receive and sell out a consignment of merchandise with newspaper advertising in less time than it takes to prepare a circular.

"(4) Do you want to be recognized as a factor of importance in your community—a real hometown store? If you do, use the newspaper—it undoubtedly is a strong factor in the building of good will and acceptance by the whole town of your store as a good place to trade."

LISTEN YOUTH

You are standing upon the threshold of life. Only two roads lie before you. One of them seems very pleasant and easy to travel but it will not always be so. There are swamps and morasses along the way in which hidden dangers lurk.

Many groups of young people have started down this road that seemed so fair to them. But alas, they have been overcome by enemies who came to them in the guise of fair friends. They promised them pleasure if they would but yield to their seductions.

Some of these young people who started upon the wrong road have turned back and have gotten onto the right road. But those who heedlessly remain on the wrong road will find out, when it is too late, that they are hopelessly entangled in the morasses of bad habits, shattered health, and weakened will.

Listen youth! It is fashionable to drink cocktails today. There are many parties and social gatherings where alcohol is served. You'd better let it alone. It is one of the chief enemies that you will encounter upon the wrong road.

Alcohol seems to be such a jolly good fellow. He's wearing a mask. If you cultivate him, that pleasing face will change and some day you will know him for the fiend that he is. If you listen to his siren song and follow him, he'll lead you down to disgrace, despair, perhaps a mad house or an early death.

Let us look at some of the facts about alcohol: It is a narcotic poison. At first, it seems to exhilarate, to stimulate. When you take one drink it calls for another. For a little while care seems to slip away and you feel rich and happy. Bye and bye the narcotic properties assert themselves and the drinker falls into stuporous slumber. Next morning the head aches and nausea and depression takes the place of exhilaration. What does this mean? It means that alcohol is poison and is unfit for human consumption.

Listen youth! You are now looking into the real face of enemy, alcohol. Last night with the jolly crowd, the gay laughter, the bright lights, he presented himself to you as a charming and desirable companion. You gave heed to his wiles and followed where he beckoned, down the wrong road.

This morning, in the revealing light of day, you see him as he is, a deadly enemy that is seeking your destruction. Don't risk him again. Every time that you do, your will is weakened and your powers of resistance are lessened. If you continue to indulge the habit of drink, you are lost.

The liquor habit is increasing, sad to relate. In one city where records are kept, women contribute over nine per cent of the total drunk arrests. Formerly drunken women were almost negligible in this country. Now they are fairly common.

Many people are so susceptible to alcohol that they almost invariably become addicts, if they once begin the habit of indulging in it at all, they cannot drink in moderation. This is because alcohol injures their brains and their nervous systems. It masters them and they become its slaves. They started on the wrong road and they haven't the strength to turn back and get onto the right road.

If a man has acted right, he has done well, though alone; if wrong, the sanction of all mankind will not justify him.

—Fielding.

Without Painful Backache
 As we get older, stress and strain, over-exertion, excessive smoking or exposure to cold sometimes slows down kidney function. This may lead many folks to complain of nagging backache, loss of pep and energy, headaches and dizziness. Getting up nights or frequent passages may result from minor bladder irritations due to cold, dampness or dietary indiscretions. If your discomforts are due to these causes, don't wait, try Doan's Pills, a mild diuretic. Used successfully by millions for over 50 years. While these symptoms may often otherwise occur, it's amazing how many times Doan's give happy relief—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!
