**Eskimo Scouts Aid Army In Far North**

JUNEAU, Alaska—The Army National Guard here in the far north is composed of two Alaskan Scout battalions and two infantry battalions. The scout battalions were organized in 1949-51 in approximately 50 villages along the Bering seacoast, the Arctic Ocean, and in the valleys of the great rivers.

The scouts are disposed in these areas in units of one, two, or three squads in each village according to population.

Fully four per cent of the entire Eskimo population are members of the Army National Guard.

**NOTICE OF SALE**  
Under and by virtue of the power of sale contained in a certain deed of trust executed by Enos Mallory, dated February 4th, 1944, and recorded in M. D. Book 23, page 516, in the office of the Register of Deeds of Perquimans County, N. C., default having been made in the payment of the indebtedness thereby secured and said deed of trust being by the terms thereof subject to foreclosure, at the request of the holder of the note, the undersigned trustee will offer for sale at Public Auction to the highest bidder for cash at the Court House door in Hertford, Perquimans County, N. C., at 11:30 A. M., on the 12th day of January, 1954, the property conveyed in said deed of trust, the same lying and being in New Hope Township,

Perquimans County, North Carolina, and more particularly described as follows:  
Beginning on the Durants Neck Road at the Stokes lane, thence running southeasterly down said road about 300 yards to E. A. Goodman's land; thence running southwesterly along the said Goodman's line about 800 yards to the tract known as the Humphries land; thence in the same course across the said Humphries tract to the Sawyer land, the land that Jack Sawyer now owns; thence in a northwesterly course along the Humph-

ries line to the J. E. White land; thence following the J. E. White and Sawyer line; thence in a northwesterly course to the J. I. Wood land; thence in a southeasterly course to the Stokes lane; thence in a northwesterly course along said lane to the Durants Neck Road, the point of beginning, containing about 226 acres, including the J. E. White tract, the northern half of the Copeland tract, and the 10 acres tract owned by H. A. Goodman purchased by J. E. Baker. For further details see deed book 9, page 14, No. 22, Public Registry of Perquimans County, N. C.

Dated and posted this 9th day of December, 1953.

Trustee.

**KIDNEYS MUST REMOVE EXCESS WASTE**

When kidney function slows down, many folks complain of sagging backache, loss of pep and energy, headaches and dizziness. Don't suffer longer with these discomforts if reduced kidney function is getting you down—due to such common causes as stress and strain, over-exertion or exposure to cold. Minor bladder irritations due to cold, dampness or wrong diet may cause getting up nights or frequent passages.

Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 50 years. While often otherwise caused, it's amazing how many times Doan's gives happy relief from these discomforts—helps the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

**DEPENDABILITY**

The dependability of the modern telephone has made possible modern business methods. Imagine a busy office without a telephone, and you will realize its vital importance in the scheme of today.

A phone call, day or night, assures our promptly assuming all responsibility and handling all details. Sincerity of purpose, and dependability of professional duties dictate the policy of our establishment.

**Expect Farm Prices To Remain Steady, Costs May Drop**

A hopeful note was sounded at the recent Agricultural Outlook Conference to the effect that there may be some further drops in farm production costs next year, in addition to slight reductions this year according to Ralph Sasser, Assistant County Agent for the State College Extension Service. Prices received for farm products, on the other hand, are not likely to fall much below their present levels, except for normal seasonal variations.

The fall in prices of farm products and farm incomes this year has been due largely to two factors, says Mr. Sasser. These are bounteous harvests and a sharp curtailment in foreign demand for United States farm products.

Total crop output next year may be reduced somewhat by acreage restrictions for wheat, corn, and cotton, though supplies are again likely to be larger if weather is favorable. An improved foreign gold and dollar situation may strengthen export demand if official policies on the use of the gold and dollar reserves permit. Domestic demand, which has been at a high level throughout 1953, is expected to continue strong in 1954. Price supports will cushion the effects of large carryover supplies. Taken together, these factors spell a probable stabilization of farm prices near their present levels, according to Sasser.

The general level of prices paid by farmers ran about 3 per cent below the 1952 level in the first 9 months of this year, the county agent explains. Most of the decline was due to lower prices for feed and feeder livestock, and prices of these major items are not expected to change much from present reduced levels. Prices of industrial products will probably change very little, but price concessions are likely to be more general than in 1953 for those commodities produced primarily for the farm market.
