

Farmers Warned Not To Overplant

Every year, some farmers in Chowan County are greatly inconvenienced by having planted in excess of their allotment on one of the basic crops. A. C. Griffin, chairman of the Chowan ASC County Committee, is representative of the ASC County

sued a reminder to all Chowan County farmers that it is their responsibility to plant within their acreage allotments. Every year a few farmers over the county, on having their acreage measured by ASC personnel, find that they have overplanted. Many of these farmers pay additional money out of their pockets to have a representative of the ASC County

Committee witness disposition of the excess acreage. Other farmers make a deposit with the ASC office to have officials re-visit the farm and re-measure the acreage. In just about every case, this is an unnecessary drain on the farmer's pocketbook, and in every case the time lost by these revisits to the farm is an inconvenience to the farmer. Then, too, every time a farmer plants in excess of his allotment he is wasting seed or plants, fertilizer, and labor.

Flue-cured tobacco farmers have another responsibility. The Department of Agriculture again this year is supporting the price of certain "discounted" tobacco varieties at one-half the normal support rate.

The responsibility for the identification of the variety of tobacco grown on the farm rests with the farmer. Every farmer will be required to sign a certificate to the effect that he has or has not planted one of the discounted varieties.

ASC will take extensive steps to identify any tobacco of the discounted varieties that might be grown in this county. However, this does not alter the fact that the responsibility actually rests with the farmer growing the tobacco.
