**Woodland Dress Shoppe** Phone 2831 Hertford of the Belgian Congo

Not Ready-As laudatory as the goal of free nation status is, perhaps there is no better example as the complete unreadiness for such status as in the example of the Republic of Congo. Belgian control of the Congo was swept aside under the cry of anti-colonialism and hastily and without preparation the Republic of Congo was created from a tribal area of approximately one-third the size of the United States,

Reports - I have read reports that indicate illiteracy is rampant and that there is not one trained native doctor, lawyer or engineer in the land and that only 16 college graduates have come from the country. Among the many tribes it is said that some are still savage and cannabalistic among these most primi- Bagley of Winfall announce the tive people. # Not a single cracked egg since Chevy took over the route

That '60 Fleetside pickup you see takes whatever kind of road comes along, and makes about 250 stops a day delivering eggs house to house for Mr. Harry Hansen of Missoula, Montana. "With my previous truck," Mr. Hansen writes, "I always had some cracked eggs. Cargo damage always cut into my profits. But the new Chevy eliminated that problem completely. I haven't had one cracked egg with my new truck and I've had up to a ton of eggs in it without any difficulty. . . . I didn't know a truck could ride so nice.'

Chevy rides nice, all right: takes good care of fragile cargoes. But that's not even the half of it. Torsion-spring suspension also means longer life for the truck, extra thousands of working miles, because the sheet metal and body components take less of a beating. You can run off-the-road or over back trails at faster safe speeds, too; get in more trips a day, make more money. Those facts are as true of the big Chevrolet heavyweights as they are of the pickups. Any model you name. Get one on your job and you've got the world's most efficient, most economical way to haul any load over any road. Your dealer will be happy to prove that statement any day you say,

"I'm getting close to 20 miles to the gallon," Mr. Hansen states, "and that's on stop-and-
