To what extent are the changing times affecting the buying habits of Perquimans County residents? How much of their money are they alloting for food, for clothing, for household equipment? How much for cars?

A definite adjustment appears to have taken place in the past year, reflecting the business recession and growing unemployment. The housewife's budget, at least for the present, is along a more conservative line, with a smaller proportion of her money going for the frills and a larger proportion for the basic needs.
