Billy Ward To Attend Camp

Billy Ward, Boy Scout Post 155, son of Mr. and Mrs. John Ward of Hertford, is among 13 boys from Tidewater Council who will be attending the XII World Jamboree on August 1-9 this year at Farragut State Park, Idaho.

On June 12, the boys and their parents met with the Council Jamboree Committee headed by General J. C. Burger, USMC (ret.) and had a special orientation on travel plans and Jamboree highlights.

Last weekend, June 16-18, the regular contingent had a pre-Jamboree Training in Camp Brady Saunders at Malden, Va., where they were reorganized into patrols, selected leadership, used the Jamboree equipment and prepared themselves for the Jamboree experience.

Weather Slows Insect Build-Up

Due to the weather conditions we probably have not had the build-up of insects on peanuts at the present time that we normally experience, and we suspect that Thimet, when put with peanuts, is controlling the insects much better than in years past, but it is approaching the time that you should begin to look for insect damage to start appearing on peanut leaves.

Again this year, we are suggesting that you use sevin and Copper Sulphur and begin applying it as soon as you notice insect damage to your leaves," states R. M. Thompson, County Extension Chairman. "We know that controlling leaf spot and insects really pays off in yields, as in the case of peanuts. We hope that you will follow a program of dusting that will give you maximum returns," further states Mr. Thompson.

The body was removed to the Swindell Funeral Home pending funeral arrangements.
