### United Nations Assn. Of USA Meets In Ahoskie

Mrs. Sylvia W. Winslow, International Chairman of Perquimans County and Whiteston Home-makers Club and Mrs. Flora Hurdle, Chairman of the Belvidere Club, attended the North Carolina Division of the United Nations Association of the USA held at the First Baptist Church in Ahoskie on Monday.

Mrs. Julian Porter, Severn, District I Chairman, presided.

The Mayor of Ahoskie welcomed the group. The Devotional was given by Mrs. Mary Ellen Mobly followed by a Solo, "Let There be Peace on Earth and Let it Begin with Me."

Miss Julia Miller of Raleigh, Vice President, introduced the morning speaker, Dr. Joseph S. Clark-former U.S. Senator from Pennsylvania for 12 years and now President of the World Federalists, who spoke on "Peace-keeping: United Nations Business Around the World." He contended that everyone is for Peace but no one wants to do anything about it. Unless the world learns to love instead of hate there is no chance of having peace. The purpose of the UN is to advance the cause of Peace. International Relations is trying to establish friendships with people of other countries.

On the panel discussion Mrs. Dorothy Brown of Murfreesboro declared the UN is the one hope we have of making peace. Even though it does not do all we hope for, it gets at the root of many conflicts and has done a tremendous job of preventing contentions which we do not hear about. Dr. Clark expressed his appreciation of the fact that the Home Demonstration Clubs are interested and pushing the work of the U.N.

A luncheon was served at the Tommy Hawk Restaurant with the Ahoskie Rotary Club. Dr. J. S. Clark was guest speaker.

After the Rotarians left the Dining Hall Mrs. B. Frank Hall, UNICEF State Representative of Wilmington, told how UNICEF helped children in other countries. UNICEF, the United Nations Children's Fund, helps children in over 100 countries of the world. One major function of U.S. Committee for UNICEF is to foster an understanding of the needs of children in the developing coun-

### Protection For The Young Under Social Security

Many young people don't realize the protection they have under social security. They continue to think about social security as being a program for older people involving retirement and Medicare. This is far from being the complete story. Social security provides disability payments to disabled workers and their families and to widowed mothers and their children.

To illustrate the protection social security provides a young family, the following example is given: A young father of two small children, both under age 6, is disabled in an accident. His average earnings covered by social security were \$450.00 a month. His family could receive about \$354.00 each month, or \$4,250 each year, in social security payments. By the time the youngest child reaches 18, this family could have received more than \$85,000. Payments to the wife would be stopped, but they would be continued to the disabled worker. Later when the wife reaches age 62, payments would be resumed for her.

Anyone who would like more information about social security should call or visit the office at 401 S. Dyer Street, Elizabeth City, N.C. The office is open Monday through Friday from 9:45 a.m. until 5:00 p.m. and on Saturday from 9:00 a.m. until 12:00 Noon.

### Crop Residue Management

The above photo shows corn stalks cut with a rotary mower and disked lightly in Perquimans County. Residue left on and near the surface offers several advantages. The residue acts as a blotter to help absorb moisture; as a cushion to take the force out of raindrops, and as a mulch to protect bare soil from erosion. There is one more important reason for leaving residue "on or near the surface." That is where the most bacterial action occurs which gives the fastest rotting. NOT CONVINCED? Then think - WHERE DOES A FENCE POST ROT OFF? Why sure - right at the top of the ground!

## National 4-H Week Slated October 5-11

North Carolina's 60,000 4-H members and 15,000 adult leaders will share the spotlight Oct. 5-11 with more than three million youth in 50 states and Puerto Rico. The occasion will be National 4-H Week.

The theme of the special observance is "4-H: Opportunity for All," according to Dr. T. C. Blacklock, state 4-H leader at N.C. State University. "Our emphasis will be pointing out how 4-H benefits all boys and girls ages 9 to 19, of all cultural, racial and economic backgrounds and also to youth who live in town as well as in the country."

The state 4-H leader said each Tar Heel county would plan activities during National 4-H Week to:

- Encourage more youth to take advantage of 4-H opportunities.
- Urge more men and women to volunteer as 4-H leaders, and to enrich their own lives in addition to serving youth.
- Recognize the important contribution of parents to 4-H, and influence their continued cooperation.
- Acknowledge the support of 4-H friends and express appreciation to them.

Report the year's accomplishments and consider future needs and plans.

The 4-H program is part of the national educational system of the Cooperative Extension Service of the National 4-H Council, Inc., Washington, D.C.
