# KIDS. THE NEW SUPER 55 COULD GET US ALL IN PLENTY OF HOT WATER

It's a parental plot. The people who invented water heaters (you can bet your marbles they're all parents) have come up with a new one. It's better. For parents. Because it makes more hot water than old-type water heaters. And it makes it faster than most of them.

They call it the "Super 55." And they made it electric so the finky thing would be dependable. In fact, if your parents get the proper size "Super 55" for your family, there's hardly any chance you'll ever run out of hot water. Almost never!

Just think about it. With the new "Super 55," there's no more use in hiding until everybody else has taken their baths and the hot water's run out.

If we don't stop this thing now, every parent in the country might get a new "Super 55." Enough hot water to keep every kid in the country unbearably clean. It's a dirty shame.
