Why sweat?

The Mobilair® 5000, 59 pounds of Westinghouse air conditioning in a compact unit that cools rooms 12x16 or smaller, cools them all over.
Carry one home, install it in minutes - it plugs in like a lamp into any adequately wired circuit. Fits any window 19 1/2" to 42" wide. Got another room in the house that's

roasting? Why not two? Whether you carry home one or two of more, each Mobilair carries a 5-year replacement guarantee: if the hermetically sealed refrigeration system should fail within 5 years, your Westinghouse dealer will replace the entire unit.
Honestly now, why sweat?

The one to use is the Westinghouse logo.

SOME PEOPLE THINK ELECTRIC HEAT IS ONLY FOR THE RICH.

Except those who have it.

All kinds of people who work for a living have electric heat. People just like you.

They know the value of a dollar. And when they spend it on something as important as home heating, they want total value.

They choose electric heat because it's cleaner, safer, quieter, and more flexible than any other system. It's the only system that will be as up-to-date years from now as it is today.

So when you consider the cost of a heating system, consider the value. Ask yourself whether any other heating system offers more for the money than flameless electric heat.

Ask your developer, architect, or heating contractor about today's best heating value. Electric.

And if people wonder why you're working, tell them it's just a hobby.
