Fire Prevention Week Is Oct. 3-9

Fire's toll each and every day in the United States is an average of 33 lives, 1,486 homes, 215 apartment buildings, 30 schools, 10 churches, 215 stores, offices and restaurants, 139 industrial plants, and buildings on 127 farms.

Last year alone, ap-proximately 2,475,000 fires claimed 12,200 lives and cost the nation \$2.8 billion in property destroyed or damaged.

Underlying these figures from the National Fire Protection Association, Fire Chief F.B. Nixon points out, is the tragic fact that much of this waste of lives and property is avoidable. If the basic rules of fire safety were observed at home and on the job, the record could be far different.

Fire Prevention Week, which in 1971 will take place from October 3-9, serves to reemphasize the truth that FIRE HURTS-that fighting fires is the job of each citizen, not only during Fire Prevention Week

but throughout the entire year. Local observances of Fire Prevention Week will be sponsored by the Hertford Fire Department, Chief Nixon announces. Proclaimed by the President of the United States and the Governor-General of Canada, the week is internationally sponsored by the National Fire Protection Association.

Features of the week-long program will include a parade Saturday Oct. 2 starting at 2 Perquimans County District p.m. sponsored by the Court on Wednesday and heard Albemarle Firemen the following cases: Association.
