Artist Creates Pictures With Nylon Thread

Charles L. Winslow, formerly of Hertford, has been drawing and painting since early childhood. He decided in June, 1969 to try to create something different with his artistic ability.

Since his appearance on the American art scene in 1969, he has been singled out as the only one to show an originality of form of ideas. Already he has participated in scores of group shows in North Carolina, New York City and Long Island.

He has been awarded Best of Show, First, second and third prize in several outdoor shows. His creation has added something new to the world of art, which he calls "Thread Art." He creates pictures with nylon thread and pins. His idea has taken months of figuring and patience. One would really need a steady hand, good eyes, imagination, creativity and patience to do this type of work.

Winslow is the son of Mr. and Mrs. C. Willie Winslow, formerly of Hertford.

PERQUIMANS COUNTY
FARM BUREAU ADOPT
RESOLUTIONS

to that use:

HIGHWAYS

The Perquimans County Farm Bureau Resolutions Committee adopted resolutions to be sent to the annual meeting in Durham. These resolutions consist of our policies and views that the farmers have on the different issues that affect them.

The resolutions were drawn up by the following committees and adopted by the members at the annual meeting held Monday night, November 8, 1971. General Resolutions-Young farmers and Ranchers Committee

Donald Madre, chairman, Johnny Corpew, Secretary, Billy Williams, Reporter, and David Williams, Director.

ECOLOGY

1. Chemical Companies and applicators of chemicals should be held liable for any damage incurred by a farmer following recommended practices.

2. Farm Bureau should promote research to protect farmers against toxic chemicals and farm land against undue residue of toxic chemicals.

3. We encourage an amendment to the open burning law that would allow farmers to burn brush and straw residue in small grain fields.

STATE TAXES

1. We encourage the Farm Bureau to make the farmer aware through news media that farmers are to pay only 1 percent tax on all farm items.

2. We favor the Farm Bureau policy to eliminate all items in our tax structure which discriminate against agriculture.

COUNTY TAXES

1. We feel that two-thirds majority is needed to carry a vote in a referendum.

RESEARCH

1. We recommend that research in pest control be intensified.

PROMOTION

1. We double our efforts to strengthen the Farm Bureau in every way.

LOCAL AFFAIRS

1. Welfare should be handled at the local level.

2. Farmers should be involved in zoning property.

3. We oppose the breakdown of our public school system brought on by a Dictatorial Socialistic Government.

4. Farm Bureau should continue its efforts to have farm land appraised and taxed on the basis of its value for agricultural use so long as it is actively devoted

1. Farm Bureau should work on legislation requiring one sign be displayed on farm equipment. We are now required to have a SMV sign and a four foot square red flag.

2. It should be required that the manufacturers install roll bars on tractors and SMV signs on all new equipment sold.

3. We recommend universal signs in each state.

MARKETING

1. We support the Sisk Bill, which is the Agricultural Marketing Act of 1971. We encourage the Farm Bureau to double its efforts to get this Act passed in 1972. Quote, Chairman Albert Eure, "This is the most important bill that has ever come before the farmers and we should do everything to get it passed." Quote William J. Kuhfull, President AFBF, "The days of take-it-or-leave-it must come to an end, and we, as farmers, believe that this is a proper role for government to play in establishing procedures which require good faith bargaining between handlers and qualified associations of producers. Farm Bureau is solidly in support of legislation to improve the legal foundation upon which farmers can build their own effective, non-governmental marketing and bargaining association."
