## In Fashion

The right length for pants, worn with a pant's suit, should be with the hem barely touching the instep. Rolled up pants and hot pants should be used only for beach or country wear.

Some of the striped dresses shown in shops use the material so that the stripes go in several different directions. This is supposed to give a slim look to those who are trying to lose a few pounds.

The dress with the two-piece look is popular this spring. This is accomplished by making the shirtwaist type bodice one color and the skirt another.

A 1940 style is in again for evening. It is the long dress with the halter neckline, bare back and very full skirt.

Get a sun hat for that trip to the beach. Too much sun can age the skin.

### DRYCLEAN SINK

To scour a greasy sink, try this "dry-cleaning" method: apply soap or detergent to a dry cloth or sponge and scrub the sink -- dry. Then turn on the hot water and rinse the grease away.

### SMALLER EGGS

Egg size varies, depending upon a number of factors such as temperature. North Carolina State University poultry specialists point out that hot weather usually causes egg size to drop quickly, sometimes an ounce or more. Not only does the 90-plus degrees weather reduce the size of eggs, it also will cause the hen to lay fewer eggs.

### TEENS EATING HABITS

Eating habits of the American teenager are a dietary disaster area, according to nutritionists.

Teen diets consist mostly of cookies, potato chips, skipped meals, greasy hamburgers, soft drinks and doughnuts. Close to one-fourth of a teenager's daily food comes from snacks, many of them full of empty calories, note extension food specialists, North Carolina State University.

## June, 1972

June, the month of weddings, commencements, school vacations, also ushers in summer which this year arrives on the 21st—the longest day of the year. The month also begins with statehood days in Kentucky and Tennessee.

Jefferson Davis' birthday (the 3rd) is remembered in the South. D-Day (the 6th) is recalled all over the world and Father's Day falls on the 18th this year. The 17th is the anniversary of the Battle of Bunker Hill (1775), the 20th is West Virginia Day and the 25th the day (in 1876) that General Custer and his troops were wiped out at Little Big Horn, Montana.

The first American troops landed in France on June 26th, 1917; Helen Keller was born on the 27th at Tusculumbia, Alabama, in 1880, and World War I, the great tragedy of this century (which produced Communism, Fascism and World War II), was ignited by the assassination of Archduke Franz Ferdinand, heir to the throne of Austro-Hungary, at Sarajevo, Bosnia, on the 28th, in fateful 1914.
