We're selling them faster than we can make them.

There just aren't enough Perdue chickens to go around.

Ask the lady in Pennsylvania. She wrote to tell us she'd been driving 100 miles to get her Perdue chickens. That was before the gasoline crisis. Now she's probably sitting home, waiting for Perdue chickens to come to her.

We could sell an extra eight million birds a year...if we had them. But we don't have them. And that's the problem.

Perdue's problem is your opportunity.

We'll pay you the highest rates ever in North Carolina to build a Perdue broiler house and start growing our chickens now. (But not all eight million of them.)

Suppose you build a 16,000 bird house. We'll guarantee you a minimum income of \$48,000 over a 30 flock period (see box). And with good management there's no reason you can't earn a lot more.

It's a steady, secure income. You get a check every nine or ten weeks. You get it rain or shine. And you get it in the winter when nothing else is growing.

For some growers, it's a part-time income because they don't have to spend more than three-to-four hours a day in the broiler house. But for other growers with more than one house, it could be a full-time job.

How much time you put into your broiler business depends on how much money you want to take out of it.

You can't grow them faster than we can sell them.

We already have customers for the chickens you're about to grow.

Minimum Guarantee For 6 Years	Average Payment For 6 Years
\$48,000 (For 30 Flocks)	\$57,000 (For 30 Flocks)

A major breakthrough in no-wax floors...
SOLARIAN
by **Armstrong**
Armstrong has never promised you a no-wax floor... until now. Solarian is a floor that really does glow without wax. Its exclusive Mirabond resin surface has a gleaming shine of its own. And it keeps its high gloss and beautiful colors—without waxing—far longer than an ordinary vinyl floor. Spills, dirt, even black heel marks come up easily, ending the drudgery of scrubbing and waxing. Come in and see the no-wax floor that keeps its promise.
