Grain reserve program is announced by ASCS

By THOMAS L. RIDDICK

GRAIN RESERVE PRO-GRAM ANNOUNCED -The food and Agricultural Act of 1977 requires the establishment of wheat reserves and gives authority to the Secretary of Agriculture to implement a feed grain reserve when there are abundant supplies.

In view of the current supply situation, the Secretary aof Agriculture has implemented a new grain reserve program. The purpose of the grain reserve program is to isolate these stocks from market to:

1. Strengthen current market prices

2. Serve as hedge against the inflationary efforts of a poor crop in future.

3. Be available for meeting emergency needs in the future. Under this program farmers enter into storage contract with the government for a three year period and receive annually, in advance a storage payment of 25 cents

per bushel for corn, wheat, and barley, 19 cnets per bushel for oats and 44 cents per cwt. for grain soughum. The grain remains in storage until the contract expires or prices for the grains reach certain levels unless the producer pays a penalty for an earlier release from the storage contract. Approvals may be issued by the County ASCS

a quality product. Farmers with 1976-crop barley, oates and wheat not yet under a purchase agree-ment may file by Feb. 28, obtain a loan and immediately enter the reserve. The final date to

obtain a loan and become

office to rotate or substitute

stocks in order to maintain

program on 1977-crop barley, oats and wheat is March 31, 1978.

Dates will be announced later for entry on corn.

Also there has been changed in the farm storage facility loan program. That will increase the amount of storage for which reserve participants may qualify. The change is in determining existing storage available on the farm. Existing capacity used to store grain in reserves will be excluded when determining add

The best shopping sprees start at home

SHOPPING by phone is convenient and economical. Besides saving time and energy, a few quick calls can locate the best price on a particular item or brand, enable you to check on sizes, colors or material, find out about deliveries and confirm store hours.

And, think of the money you'll save on gasoline, automobile wear and baby sitting costs.

No need to come home frazzled, tired and disappointed; you can go by phone and shop from the comfort of your home. Just look up the numbers in the yellow pages.

TELEPHONE COMPANY
