## LOCAL BRIEFS

### Class of '78 sets mini-reunion

Members of the PCHS graduating Class of 1978 are planning a meeting on Sunday, August 5 at 8:00 p.m. at the poolhouse of Mr. and Mrs. Joe Meads.

This will be an organizational meeting for a social event in September. Members of the class felt that last year's reunion went

over so well that a "mini-reunion" this year would be enjoyable. Interested class members are invited to attend. Your ideas and input are welcomed. Class members may be asked to help call other class members (local) because invitations will not be sent out.

### Jaycee calendar sales underway

The Perquimans County Jaycees are sponsoring the sale of community calendars once again. The calendars will sell for \$3 and each listing will be 25 cents. The Jaycees and Jaycettes

will begin their sales August 1st and continue through the month of August. If not contacted during this time please call Ricky Ricks, 426-5108 or Teri Copeland, 426-8385.

### Weight reduction class set

You are invited to attend a class for persons interested in weight reduction.

The classes will be held Tuesday, August 14 at 2:00 for ages teen to 35 and 3:30 for ages 36 and up at the Perquimans County Health Department.

Each person will be weighed and have their blood pressure taken on an individual basis.

These classes will be held once per month, and will last approximately one hour.

Please mark this date on your calendar and plan to attend this free class. If you can not attend and/or would like more information about these classes, please call the Perquimans County Health Department at 426-5488.

### Soybean scouting school set

The 1984 Perquimans County Extension Soybean Scouting School is scheduled on Monday, August 6, 1984 at 5:00 p.m. at the Perquimans County Extension Office building in Hertford.

NCSU Extension Entomologists are estimating that 1984 will be a bad corn earworm year, the worst since 1978. This school gives the skills you need to scout your soybean fields and identify the insect pests present. You will be taught treatment thresholds and which insecticides are most effective for the corn earworm.

The school will be a combination of on the job training and classroom instruction.

Any interested persons are invited to attend this educational meeting.

There will be a sponsored meal. Please call the Perquimans Extension Office and let us know if you plan to attend (426-5428).
