Letter to the Editor

Editor
The Perquimans Weekly,

To clear a definite misunderstanding, I wish to state, I support No One in runoff election. I had knowledge of 3 rumors circulating strong in my campaign effort. I relied, in error, on people to discount them as the lies they were.

1. No intention of giving up building business if elected. I stressed the Total Commitment needed for this office. Shelving my business and taking an income cut, I was well prepared for I have No Debts for Anything or to Anyone.

2. Running To Help Broughton By Splitting Vote. I've had this rumor once before, and registered that morning before he did, hoping to nip that rumor in the bud, but to no avail. At Present, this election, the people can now see why because of runoff possibilities, that no candidate registering can possibly help another.

3. Bad Health, Looking For a Pie Job. I have had diabetes since I was 17. Foryou that don't know, it's not a terrible disease or affliction. It is a controllable disorder that can be inherited or caused by injury; the latter in my case. Physicians have found diabetics are usually in better health than the average person, as they pay more attention to exercise, diet, etc. Dealing with diabetes isn't a problem, dealing with peoples' misinformation of diabetes is what makes it difficult. There are many diabetics in all fields, sports, medical, government, and yes, law enforcement. You candidates really hit below the belt on this one.

If you see a pie job, you'll see a lazy person holding it. No job is a pie job, if you got the desire, drive, and will to do it as it should be done. Training and experience can't put this in a person, he must already possess it.

There has been a marked improvement in Sheriffs' Dept in the last several months. Deputy Logans' dedication in performance of duties, prove to be quite an asset to the Dept.

The realization that loss of office is possible, has now descended upon Little Man, that the people that put you there, can put you out. I think it has been a valuable lesson and if re-elected, feel that the people can count on

Broughton to perform his job a lot wiser and better, perhaps even with some of that same dedication he had in the past. (Yes, Broughton, there are those of us who do remember.) For those of you that deem this support of Broughton, I assure you it is not. It's just my honest opinion and something I think the people should consider.

Candidate Lothian is also well aware of reasons why I don't support him. The short time Candidate Lothian has been in County proves to be advantageous, in that a lot of people have not had

an opportunity to gain insight as to his strengths, weaknessess, etc. as they have Sheriff Broughton. I repeat, I support No One in this runoff and will abstain from voting.

People of the County, elect your sheriff, then support him. If you have a complaint, don't fear him, confront him, and if it isn't corrected, take legal steps necessary to right your wrong. Donald Riddick Rt. 5, Hertford

Discarded plastic materials in the solid waste stream produce energy when they are burned, according to the Society of the Plastics Industry. Their BTU value is up to 18,500 per pound: equal to coal, much higher than the average waste.
