ECU residential camps enroll 260 students

GREENVILLE—Approximately 260 youngsters from North Carolina and four other southeastern states have completed a summer science program in one of two residential summer camps sponsored by the East Carolina University Science-Math Education Center.

The students were enrolled in one or two weeks of the annual ECU Summer Science Camp for children aged 10-12 held at Camp Caroline near Arapahoe or in either of two sessions of

a camp for academically gifted students in grades 7-10.

Both camp programs were directed by Dr. Floyd Mattheis, who heads the ECU Science-Math Education Center. Assistant directors for both camp programs were Gregory McCall and Vivian Martin. Associate director of the camp for academically gifted was Karen Collier.

The latter program was held on campus and featured laboratory, lecture and class sessions in physics,

chemistry, paleontology, computer science, photography, robotics and astronomy. Students were housed in a campus residence hall and had access to campus recreational facilities.

The Camp Caroline program emphasized high interest science activities designed to increase the children's awareness and knowledge of the environment, along with fishing, swimming, boating, campfire story-time and other recreational activities. Izzie Herman of Perquimans

County participated in this program. Counselors for the summer science camps were Bert Bright of Snow Hill; Roger Bynum of Stantonsburg, Carol and Al Davis of Ayden, Pat and Kim DeRoss of Powell, Tenn., Vickie Harris and Glenn Gainey of Wilmington, Lisa Jacksonville, Matt Hooper of New Bern, Alton Hobbs, Jr. of Sunbury, Sufiana Jones and Joseph Rollins, Jr. of Rocky Mount, Elizabeth Pope of Como, Benjamin Midyette of Englehard, and Carl Brow and John Rose, Jr. of Greenville.

One arrested

As of press time Tuesday one suspect has been arrested and a warrant is pending for the arrest of another in the August 17 & 18 breakins at Hertford Baptist Church.

The Baptist Church was broken into on both August 17 & 18 sometime during the evening hours, and according to the police two air conditioners were taken.

Both air conditioners which were taken from the church have now been recovered stated Merritt. One air conditioner was recovered by police on August 18 near the Medical Center on Market Street, and the other one was recovered with the help of the Perquimans County Sher-

iffs department on August 20 in Elizabeth City.

Police Chief Marshall Merritt stated that William Edward Skinner, Jr. age 31 of 302 Stokes Drive has been arrested and charged with 2 counts of breaking and entering and larceny in the case. Skinner was arrested in the early hours of August 19, and is currently being held in the Al-bemarle District Jail under \$2,500 bond. Skinner had his first appearance in court August 20, and a probable cause hearing in the case has been set for September 3, 1986. The investigation of the case is continuing.

State predicts death toll

CHARLOTTE, NC—The N.C. State Motor Club is projecting a holiday traffic death toll of 21 persons during the 78-hour Labor Day weekend which begins Friday, August 29 at 6 p.m. and ends Monday, September 1, at midnight.

The 1985 Labor Day holiday claimed 21 lives and due to the current trend of above average holiday weekend fatalities the death toll is expected to equal, or may even exceed this number.

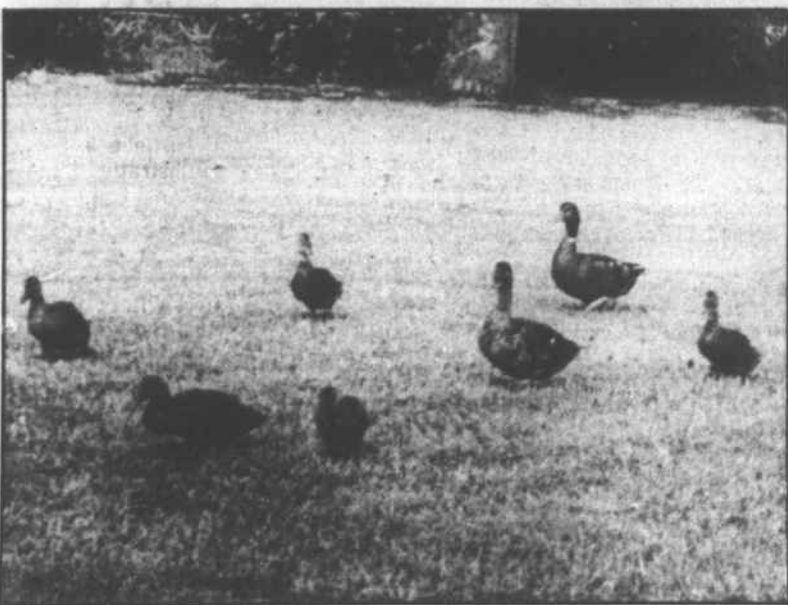

The leading driver violations contributing to fatal accidents last year were Speeding and DUI-Alcohol.

"The risk of injury or death to every person who uses the roads is very real," Dr. John G. Frazier III, president of the statewide motor club said. "No one can control all of the factors involved in a traffic collision; however, it is within every driver's power to control his speed, and to eliminate driving after drinking alco-

holic beverages," Frazier continued. "There is another very simple but effective way of cutting your risk by more than half, and that is to wear your seat belt," he added. According to the National Safety Council and the National Highway Safety Administration, seat belts are a proven life saver.

Labor Day is the holiday which ends the summer vacation season and signals the return to normal routines for families, which means school for the youngsters and concentrated work for the parents. "We urge every motorist to 'Think Safety' in an effort to make our highways safer and end the summer vacation season on a happy note," Frazier concluded.

To date 975 traffic deaths have been reported in North Carolina according to the N.C. Division of Motor Vehicles' records.

Fisheries puts out warning

Coastal fishermen are asked to be on the lookout for tagged channel bass (also called red drum and puppy drum.)

Biologists with the N.C. Division of Marine Fisheries recently tagged 200 in the Pamlico River. They hope to catch and release red drum in other areas later this year. Since 1983, they have placed orange or yellow plastic tags in the dorsal area of the drum from 10 to 60 inches in length.

A \$2 reward is offered for the re-

turn of the tag.

Biologists need the help of fishermen returning the tags to learn where the red drum migrate, how fast they grow, and other details to provide information necessary for management decisions.

For more information, contact the Division of Marine Fisheries by calling toll free-1-800-682-2632 between the hours of 8:00 a.m., and 5:00 p.m., Monday through Friday.
