OUR DEMOCRACY—by Mat

One Book—indispensable

Our forefathers depended on the Bible, often the only book in the family, for spiritual guidance and religious worship. Children were taught to read from it; from its pages people of all ages learned to appreciate the power and dignity of great poetry and prose.

Today as we seek guidance in meeting the serious problems before us, the Bible—with its words of wisdom, courage, solace and beauty—holds particular significance as THE ONE BOOK INDISPENSABLE IN AMERICA.

GIVE YOUR REPORTER A HAND!

They say that actors live on the applause they get — and your news reporters are no different! They like to know that you read their stuff, and they sure do appreciate your comments.

Why not let your own department news reporter know that you appreciate what he is doing — and that you read his column? He'll also appreciate it if you have any comments or suggestions for him!

It's your own column—why not make it a full co-operative project?

At the conclusion of the program Miss Mackie conducted a contest consisting of many things that Home Demonstration Club women should know in connection with their organization. Mrs. Cecil Leagans made high score in this contest, and was given an attractive and useful Foley aluminum sifter.

After repeating the Club Collect for adjournment, the guests were invited into the dining room where a table had been beauti-

COOLEEMEE SERVICE STATION

On August first The Texas Oil Company was given a lease on the Cooleemee Service Station, which has been operated for a great number of years by The Standard Oil Company and managed by R. R. "Dick" Everhardt.

The Texas Company has painted the building inside and outside, which has greatly improved the appearance.

Mr. G. I. Patterson, distributor for the Texas Company for this district and an experienced oil man says: "The Erwin Cotton Mills Company desires a more modern service station for the people of Cooleemee and it is the intention of the Texas Company to give it to them. We have poured the foundation and will erect a quonset hut, which is 24 feet by 36 feet, and will be used for storage of tires and batteries, and for washing and greasing cars. This, we believe, will give the people of Cooleemee and this community a much needed service and an efficient service."
