IS YOUR CONSCIOUS CLEAR?

By J. F. JOHNSON

It must have been horrifying to those interested in the normal and orderly development of the youth to read in the newspapers a few days ago the account of a boy who was arrested, having been charged with the commission of sundry and various crimes. What the outcome in the cases against the lad will be—The Future Outlook is unable to say. However, we wonder if the citizens of the city of Greensboro can feel that they have rendered their full duty to this little fellow, and that they are rendering the Christ-like care to other little fellows in their formative years.

In Greensboro we have a Y. M.C.A., a Community Center, a truant officer, welfare department, day nurseries, fine schools, churches, etc.

We are simply asking these agencies if they are going into the various communities consulting with parents, lending a helping hand and a word of encouragement where it is needed, in order that the youth of their communities might be guided in the right direction. If the leaders of the city of Greensboro have done this, then they can stand before the bar of public opinion with a clear conscious. If not, then the cause of righteousness ought to rise up and point a condemning finger at them, and continue this condemning finger until these leaders have assumed their plain and elemental social responsibilities.
