United Negro College Fund Gets \$1,000 From NYC Police Fund

New York, N. Y.—The United Negro College Fund this week received a \$1,000 gift from the New York City Police Department Charity Fund.

The money will be used to assist the College Fund's 36 member colleges and universities, which currently provide scholarships for nearly 20,000 students from all parts of the country — including hundreds from the metropolitan New York area.

The gift, presented by Deputy Police Commissioner Jacob Katz, was received on behalf of the College Fund by Robert O. Lowery, New York City's Fire Commissioner and Secretary of the College Fund's Municipal

Committee. Also participating in the presentation ceremony held at the Police Department Headquarters was Lloyd Peterson, Secretary of the Transit Authority and Chairman of the Municipal Committee.

The New York Police Department's Charity Fund has contributed \$6,000 to the organization during the past six years as part of its traditional distribution to philanthropic groups.

The Municipal Committee each year obtains voluntary contributions from thousands of City employees whose gifts have amounted to more than \$100,000 since its founding in 1962. Mayor John V. Lindsay is Honorary Chairman of the Committee.

Final Rites For Rev. S. W. Wiley

Rev. Slade Wiley, age 67, pastor of Hayes Chapel Holiness Church, Burlington, N. C., died Sunday, December 31, following several months illness.

He lived at 813 King Street. Funeral service was held Thursday, January 4, at 2:00 p. m., St. Mark's Holiness Church. Rev. Willie Harbor, pastor, officiated. Burial followed in Maplewood Cemetery. The body remained at Brown's Funeral Home until the hour of service.

Survivors include his wife, Mrs. Mattie Wiley; one son, Andrew Preston Wiley, Washington, D. C.; six daughters, Mrs. Ruby M. Searcy, Mrs. Grace L. Graves, Mrs. Gladys M. Silver and Miss Carolyn Yvonne Wiley, all of Greensboro, Mrs. Ella Lee Hampton, Columbus, Ohio, and Mrs. Ruth M. Hicks, Brooklyn, N. Y.

A. & T. To Offer Scholarships For Skill In Fine Arts

A new scholarship program for high school seniors with talents in music, dance, art and drama was launched this week by A&T State University.

The program is being directed by Dr. F. A. Williams, director of planning and development at the University.

According to Dr. Williams, a month-long series of auditions will be held by a selection committee in 17 different cities in North Carolina and Virginia, although students from other states are also eligible for the scholarships.

Dr. Williams said that successful contestants will be eligible for up to a full scholarship at A&T. He said that the 1968 awards will be announced shortly after the auditions.

Scholarships are available for instrumental and vocal music, modern dance, art and drama.

Dr. Williams said that interested applicants should report to the nearest audition center on the scheduled date. Applicants must provide their own transportation and instruments.

Dancers are asked to bring a tape or recording of their accompanying music and art students should have at least two of their works. Students interested in drama should have two copies of their presentation.

Additional information about the scholarships may be obtained from Dr. Williams at A&T State University.

Audition centers are South French Broad High School, Asheville, N. C., Jan. 8; West Charlotte High School, Charlotte, N. C., Jan. 9; Atkins High School, Winston-Salem, N. C., Jan. 10; C. H. Darden High School, Wilson, N. C., Jan. 16;

FINGERS BECOME THUMBS

Born without thumbs, although he does have five fingers on each hand, Gary Don Hill, 2, Dallas, will undergo special surgery soon to give him the necessary "pincer" movement to grasp and hold objects. Delicate operation will be performed at the March of Dimes-financed Birth Defects Center, University of Texas Medical Center, Dallas where (above) Dr. Fred S. Brooksaler, Center medical director is examining youngster's hands. What is now only a "first" finger on either hand will become a single-jointed thumb, and Gary will be able to swing a bat and throw a curve like the other youngsters on the sandlot.

March of Dimes Drive Needs Volunteers

The March of Dimes is mobilizing for its 30th Anniversary campaign to fight birth defects.

In January the Dimes Drive will need all friends and neighbors of good will to serve as volunteers in various tasks, including enlistment in the Mothers' March when Marching Mothers call upon their neighbors to contribute.

Each year birth defects strike more than 250,000 newborns in the United States. The problem of birth defects has always been greater than people realized. They are the greatest childhood medical problem in the United States today. Birth defects disable an estimated 1,375,000 children under the age of six.

The March of Dimes conducts intensive programs of public education because it knows that an enlightened public will de-

mand action against birth defects—our nation's second greatest destroyer of life.

Special emphasis this year is on the March of Dimes prenatal care program which stresses that baby care should start as soon as a woman knows she is pregnant.

But these goals are dependent upon getting enough volunteers for our local March of Dimes.

Veterans To Get \$223 Million In Dividends

Veterans holding G. I. insurance policies will receive \$223 million in dividends during 1968, W. R. Phillips, Manager of the Veterans Administration Regional Office, announced today.

Dividends will be paid on the anniversary dates of the policies with dividend payments beginning January 1, Phillips said.

For approximately four million World War II veterans, their National Service Life Insurance dividend will total \$208 million. The average payment will be \$52. The 1967 dividend totaled \$196 million. Individual payments averaged \$46.

The dividend for some 190,000 World War I veterans with United States Government Life Insurance will total \$15 million, with payments averaging \$79. The 1967 dividend also totaled

Two A&T Professors Earn Doctorates

Sidney H. Evans and Mrs. Pearl Garrett Bradley, teachers at A&T State University, have been awarded Ph.D. degrees at Ohio State University and will rejoin A&T's faculty next semester.

Return of the two will raise to 17 the number of new Ph.D. degree holders employed at the university this school term.

Dr. Evans, an associate professor of economics, has been on leave from A&T the past two years. He also holds degrees from Virginia State College, Petersburg and Iowa State University.

His dissertation was "An Analysis of the Costs and Benefits from Commuting for Employment in the Appalachian Region of Ohio".

Dr. Evans is married to the former Alma Coney of Magnolia, Miss. The Evans have two children, Brenda, a recent A&T graduate, and Sidney Jr., 13. Dr. Evans is a member of the American Agricultural Economics Association, the American Economics Association, Phi Beta Sigma Fraternity and Providence Baptist Church.

Dr. Bradley, on leave from A&T the past three years, is a graduate of A&T and holds a master's degree from the University of Michigan.

Her advanced study was done in rhetoric and public address and her dissertation was "A Criticism of the Modes of Persuasion Found in Selected Civil Rights Addresses of John F. Kennedy, 1962-63".

Dr. Bradley is a former "Miss Dudley High School" and also a former "Miss A&T". She is married to Chester L. Bradley, vice-principal of Greensboro's Dudley High School. The Bradleys have a daughter, Jeanie, 20, a junior at A&T.

Dr. Bradley is a member of the Speech Association of America, Alpha Kappa Alpha Sorority, and the United Institutional Baptist Church.

GIVE BLOOD AT YOUR RED CROSS BLOODMOBILE

\$15 million but averaged \$8 less.

While dividends will vary according to plan, age and amount of insurance coverage, Phillips pointed out that veterans who converted their G. I. insurance to permanent plans will get higher dividends in 1968 because of increased interest earnings on reserves. Modified life insurance policies will not share in next year's dividend since premium rates for 212,000 veterans holding these policies are so near actual costs that no surplus has accumulated.

About half of the four million World War II NSLI policies are "permanent plan," Phillips said. By contrast, all but 2,500 of the USGLI policies held by 190,000 World War I veterans are permanent plans.
