**GIVE NEGRO SECOND CHANCE AT JOB, DR. DOWDY TELLS NAVY MANAGERS**

Charleston, S. C.—The failure of one Negro at a particular job is no excuse for an employer not to give another Negro a chance.

That was the message presented last week by Dr. Lewis C. Dowdy, president of A&T State University, to a management institute at the Polaris Missile Facility of the U. S. Naval Weapons Station here.

"Equal employment opportunity will never be successful if we follow this course of action," said Dr. Dowdy. "What I can't understand is that in the employing of Negro personnel, it is often felt that if one fails, we cannot employ another."

Dr. Dowdy said the United States has failed many times in its attempts to reach the moon. "No one," he added, "has suggested that we discontinue our efforts, even though millions of dollars are invested."

"The heart transplants were not all successful and even here, no one has suggested that we

discontinue this experiment," said Dr. Dowdy. "Why then should we not pursue equal employment opportunity with the same determination and dedication? I assure you that if this is done, we cannot fail."

**B. F. GOODRICH PLANNING FOR GROWTH IN NEGRO MARKET**

AKRON, ORIO — The B. F. Goodrich Company today announced that it has retained the

services of D. Parke Gibson Associates, Inc., of New York, a pioneer in the development of marketing plans designed to fit the Negro market.

Dr. Robert V. Yohe, vice president-marketing and materials services for BFG, said a program will be developed to coordinate and strengthen the company's marketing approach for such product lines as tires, footwear and a variety of consumer products.
