Every Third Family Buys Auto In 1937

Detroit, Dec. 6.—(IPS).—Current sales figures indicate that, by January 1, the automobile industry will have provided an automobile to one out of every three families in the United States during 1937.

This industry, which only a few decades ago was non-existent but which has grown to give jobs to more persons than any other single industrial development and which has been credited with making the city of Detroit will have produced and sold about 4,300,000 new automobiles this year, it is estimated. This will be an increase of nearly 200,000 cars over last year's sales.

is expected to exceed 7,000,000. Thus, more than eleven million families of the thirty million in the United States will have been provided an automobile this year. The majority of new owners, statistics show, are persons in the \$30 per week income bracket.

Marmalade Is Good At Christmas Time

Marmalade is good for breakfast, and it has its place in the school lunch. But have you ever thought of it as a dessert? asks Cornelia C. Morris, State College extension economist in food conservation.

Spread marmalade on hot, buttered pancakes, roll them up and dust with powdered sugar. Your family will like this dessert and call for it again.

Marmalade will help stretch the Christmas dollar. Small jars of marmalade, attractively wrapped, make good Christmas presents; they help in planning Christmas menus.

Marmalade is easy to make, Mrs. Morris stated. The best fruits to use are oranges, grapefruits, and lemons. Select fruits on which the skin is clear and free from blemishes (One orange, one lemon, and one grapefruit will make enough marmalade to fill six 16 ounce jars.)

Cut fruit into very thin slices with a sharp knife. Resharpen knife frequently while slicing the fruit. Measure the sliced fruit, then add three times as much water.

(One orange, one lemon, and one grapefruit will make about a quart of fruit. So add three quarts of water.)

tes, or until fruit is tender. Let it stand over night, then boil again for 20 minutes. Measure the mixture and add an equal amount of sugar. Then cook rapidly until the syrup begins to jell when poured from the side of a spoon.

Let the finished marmalade cool for a minute or two, then pour it into the jars. (If poured in immediately, the fruit will rise to the top.)
