Hollywood Causes Library Rush

(By George Whittington)

The K. M. H. S. Library, under the supervision of Miss Beulah Stroud is a scene of lively activity—and one of the major causes is Hollywood. Just how does Hollywood affect the library? It seems that within the past few months the big movie

standing literary works of both ancient and modern writers for something to portray on celluloid, and the result—a wild rush and mad scramble as the pupils race with each other to read the books. Some of the books which were idle but are suddenly very popular are: Hagar's Prisoner of Zenda; Hilton's, Last Horizon; Wiggins, Rebecca of Sunnybrook Farm; White's, Snow White and the Seven Dwarfs; and Clemens, Adventures of Tom Sawyer. Kipling, Douglas and Nordhoff, are popular because of their works being made into movies. Flush, a biography of Elizabeth Barrett Browning's cocker spaniel, is another that is being widely read because of cinema land.

However, movies are not the entire cause of the sudden rush. The students have suddenly decided to learn good manners, and, although Post's volumes are still idle, the more recent books on etiquette are seldom returned until they are again borrowed. Three of these books that are especially active are: Allen and Briggs; Behave Yourself!; Clark and Quigley's, Etiquette Jr.; and, How to Win Friends and Influence People, by Dale Carnegie.

Since the policemen have become so generous with tickets in this and neighboring cities, the students have become suddenly very safety-minded. Proof of this lies in the fact that Floberty's, Youth at the Wheel and Sherman's, If You Are Going to Drive Fast, are two of the most popular of the new books. In fact, the first named is so popular that it has not been on the shelf for several weeks. It is borrowed before it can be placed there.

Do you want to SAVE MONEY?

The Standard Ford V-8, with 60-horsepower engine, gives you a lot of car for a little money.

300,000 new owners acclaimed the "thrifty 60" last year. Hundreds a day are buying it in 1938. Why?

Because it is priced low—includes essential equipment without extra charge—and goes farther between filling stations than any Ford car

ever built. Owners all over the country report averages of 22 to 27 miles on a single gallon of gasoline.

But economy isn't all the story by any means. The Standard "60" is built with the same precision as the De Luxe "85," and has the same 112-inch wheelbase chassis. It is easy to look at and ride in—as well as easy to buy and run. There's a Ford dealer near you.
