## A VOICE FROM DOWN THE RIVER

In the adjoining column we are publishing an open letter from Derwood Deaver to D. K. McColl, Chairmen of the Board of Directors of the Mariboro Mills, McColl, S. C.

Mr. Deaver, who is editor of the local newspaper, took an active part in the labor troubles which led to the contract which the Marlboro Mills signed with the C. I. O. and which caused us to write our, now famous, editor-

ial entitled "Sold His Employees Down the River." From his close contact with the employees of the Marlboro Mills. Mr Deaver has been able to observe the operation of the C. I. O. contract, and being interested in the welfare of the employes rather than C. I. O., has seen nothing which they have gained as the result of permitting thousands of dollars to be taken from their pay envelopes and delivered to union organizers. Mr. Deaver has witnessed the greed of the racke-teers in demanding the deduction of the 25 cents for weekly dues even when the employee could get only an hour's work and a pay of 27

Where the C. I. O. have secured contracts without the check-off the members of the union have refused to pay dues and about the only money the C. I.O. have been able to get out of the South has been from the employees of the Mariboro Mills.

We understand the the Marlboro Mills have notified the C. I. O. that they would not renew the contract when it expires next month and Mr. Deaver feels that even if the contract is renewed it should not contain

He feels that if any employee wishes to pay dues to a union it is his right, but that forcing a man to pay by taking money out of his pay envelope is un American and puts him into the slave class. The Marlboro Mills and their employees should insist upon the full amount of the wages' being pold to the employees and their being allowed, as free men, elde was amount they will pay to the union just as they declar amount they will pay to the church.

The check-off is the union organizers' method of forcing an employee pay them. It has no connection with better wages or shorter hours nor does it benefit the employee in any way.—Textile Bulletin.

#### AN OPEN LETTER TO D. K. McCOLL

Mr. D. K. McColl, Treasurer Marlboro Mills,

McColl, South Carolina. Dear Sir:

I have for some little time been toying with the idea of writing this letter. Yet, I have neglected doing so, chiefly I suppose because it is so hard for most of us to admit that we have made a

You may or may not remember that I had a small part in the organization of the Marlboro Mill's labor about a year ago. I was Assistant Chairman of the Strike Committee and Chairman of Educational Committee of the local T. W. O. C.

Please believe me when I say that I was very sincere at that time in my efforts to assist in making this town a Mecca for the working man. I felt that the Union was the medium through which all this could be accomplished. But airs, I faile it to take into consideration the selfishness and greed that seems to be one of the attributes of human nature.

It is my opinion that the T. W. O. C. has failed to do the people, the town or the mills any material good. It seems to me that all they have really accomplished has been the "Check Off" through which they have managed to pluck about four thousand (\$4,000) dollars from the pay envelopes. The same people that paid this money are now on relief.

When the T. W. O. C. organizers were in full swing here, they made much tun of a few small pay envelopes that they managed to dig up (unskilled labor) at that time. But allow me to say right here that B. U. (Before Union) I never eaw an envelope for as litthe as two cents! The records in your office will show that on several occasions people worked as little as one hour in one week and on a wage scale of 27 cents per hour. On the demand of the C. I. O., and in accord with the contract, your clerks removed 25 cents of the 27 for the current week's dues, leaving a balance of 2 cents. Let us laugh that off if we can! Or is it a laughing matter? I can't think that it is.

The T. W. O. C. had an opportunity to put themselves in solid with these people here when the mills shut down the first of the year. But did they do it? No. Why? Because it is the purpose of people of their kind to make money, not spend it. I have not seen a single labor organizer on the W. P. A. but its ranks here are filled with labor that was beguiled by the leeches who propose to live off the efforts of honest labor. I don't feel that the thinking men and women of McColl will allow this situation to last.

I want to thank you for the things that you have done for the people here in a quiet way. I have learned through a reliable source that you gave \$500 of your own money to assist the needy during the stoppage of the mills. I know that you have given them rent and coal.

I am now and in this manner offering you my sincerest apologies for having for gotten my Americanism, for even so short a time, by assisting this band of "Gunless Robbers" in trying to tear down American institutions that it took our people centuries to build. Sincerely.

DERWOOD DEAVER.
