### Get Materials To Build Up Soil

North Carolina farmers, in carrying out soil-building practices under the 1938 farm program, have filed applications with the AAA for 1,020 tons of triple superphosphate, 3,399 tons of limestone, and 270,000 pound of winter legume seed.

Under the conservation phase of the AAA program, the Secretary of Agriculture is authorized to promote soil conservation by making grants of aid to cooperating farmers, explained H. A. Patten, acting, AAA executive officer at State College.

The cost of the materials furnished will be deducted from payments which farmers would otherwise receive under the program.

The first material furnished farmers by the Triple-A was superphosphate in 1937. This year, limestone and legume seed have been added to the available materials. The value of materials that may be obtained by farmers in such cases is less than that part of the maximum payment for the farm to be earned by carrying out soil-building practices.

Three North Carolina counties, Haywood, Henderson, and Davidson have received the AAA limestone. Ground agricultural limestone or its equivalent is applied as a neutralizer on acid soils in the East and South to promote the growth of desirable grasses and legumes.

The only winter legume seed distributed in the nation were made available in four North Carolina counties, the project being experimental in nature.

Bertie received 60,000 pounds of hairy vetch and 50,000 pounds of Austrian winter peas; Pender, 55,000 pounds of hairy vetch and 24,000 pounds of Austrian peas; Duplin, 28,000 pounds of the vetch and 12,000 pounds of Austrian peas; and Hertford 28,000 pounds of vetch and 40,000 pounds of winter peas.

### THIS 'N THAT

Well, the Fair with its thrills, chills and good times is over. I hope you all enjoyed it.

Saturday night my niece was showing us some of the prizes she had won at the Fair. I picked up a toy camel, and to the amusement of all the others present, remarked: "This is a pretty elephant!" Aw! G'wan, I thought Camels was just a name for cigarettes!

Uh, huh, I thought so! Our history books say that the World War was a "war to end wars," but there has been war after war and some seem to think that another one is just around the corner. Let's hope that they're mistaken. If those foreign countries do decide on war we hope that the U. S. will not be involved. This is supposed to be a civilized country, so why act like savages?

**TOM AND GEORGE**

George: "Tom, why do you suppose that Eve ate the apple in the Garden of Eden?" Tom: "Well, I don't know unless it was because there wasn't a 'hot dog' stand anywhere around." Well, if our first parents fell for an apple, their descendants, or a lot of them have been falling for 'apple sauce' ever since. We are not spreading apple sauce when we tell you that any merchandise is no better than the dealer you buy it from — and furniture is no exception to the rule.

ing his column. It was very enjoyable and the Herald isn't going to be the same without "The Round-Up."

I received a card from Lenora Goforth, of Bostic, N. C., last week. Remember her? She used to spend her summer vacations here with her grandparents, the J. K. Goforths. She asked me to tell all her friends "hello" for her. I can't see them all so I hope they read the paper.

Friends of the Grady Goforths will be sorry to hear that most of her family is ill with "flu."

Happy Birthday to Kate (Mrs. E. P.) Greene Friday October 7th.

### Octogenarian Outlines Happiness Prescription

New York, Oct. 5.—(IPS).—Work is the greatest of man's pleasures, Dr. Thomas Darlington, former Health Commissioner of New York City said on his 80th birthday here recently.

Perturbed lest this country was turning too far toward the left, Dr. Darlington, still spry and alert, warned that the United States was veering from the safe "middle course" upon which it was founded.

"We are swinging too far to the left," he said. "We are getting away from the principles for which my ancestors fought."

"Every one should work as long as he can," he went on. "If a mtn retires, as a rule he goes to pieces right away. I don't believe anybody should ever give up work. To do so is a great mistake. Man should find his greatest happiness in work."

### Study Of Workers' Ages Shows Oldtimers Ahead

Hartford, Conn., Oct. 5.—(IPS).—Conclusive evidence of a preference by local industry for workers over the age of 40 years was disclosed in a survey just completed here.

A check of those known to be factory wage earners brought out that 47 per cent of the male workers in the factories of Hartford County are more than 40 years old. The ages of 45,932 persons now employed were tabulated from the records of the Manufacturer's Association of Hartford County. Of these 10,672 were female. No attempt was made to check office employees.

Investigation was made also of the ages of 13,331 factory workers now unemployed, who were separated from their jobs some time since August of 1937, the peak of employment just previous to the present depression. Of these 3152 are comen.

It was also shown that 77 per cent of the unemployed men separated from payroll in the last year are under 40 years of age. Of these 49 per cent are between 21 and 30 years of age. Only 23 per cent of those who lost their jobs for one cause or another were over 40 years of age.

### Facts, Fun and Fancies

This week a new column is making its debut, and for the present, we're making our exit! We wish you new columnists all the luck in the world, and hope you (if you ARE new at it) enjoy gossip writing very much. Perhaps we'll resume the work later, but for a while at least — it's all yours! Here's to you "Critical Moments and Howlarious Scoops Au revoir!"

Word-of-mouth praise is spreading the idea of sowing crimson clover on pasture for winter cover, grazing, and pasture improvement in Madison County, with the farm agent expecting a large acreage to be planted to this legume.

### NOTICE OF SALE

Under and by virtue of the power of sale contained in a deed of trust given by Nannie Jackson and husband, R. F. Jackson, to Wiley H. McGinnis, trustee for the Kings Mountain Building and Loan Association, on the 2nd day of July, 1934, and registered in the Register of Deeds Office for Cleveland County in Book 197 at Page 67, to secure the indebtedness therein mentioned, and default having been made in the payment of same and at the request of the Kings Mountain Building and Loan Association, I, as substitute trustee, will sell for cash at the Courthouse door in Shelby, Cleveland County, North Carolina, on Monday, October 31, 1938, at 10:00 o'clock, A. M. or within legal hours the following described real estate: Beginning at a rock on the East side of Dilling Street in the Town of Kings Mountain, N. C., at the old Parker corner, and runs along said street North 1.35 chains to a rock; thence East 3.60 chains to a rock on Rudisill's line; thence along his line S. 4 W. 1.40 chains to a rock, Parker's corner; and runs along the old Parker line West 3.65 chains to the beginning, containing one-half acre, more or less.

This the 28th day of September, 1938.
