

THIS 'N THAT

By Alice Burton

Patterson Grove Section

It's a good thing that Christmas doesn't come very often because we just couldn't stand all the excitement. That is, if you're all like yours truly. Ye know, the kind that get so excited that half the time you do things as if your thoughts were miles away, such as catching yourself about to serve hot water for coffee. In fact there was so much work and excitement and so many "Sundays" in the last two weeks that I completely lost track of time and failed to send in any of this chatter. I'm sure the paper didn't suffer from lack of it, though several asked why it didn't appear.

All in all, this Christmas was for many, one of the most enjoyable ever. We couldn't keep from thinking of those to whom Christmas only brought sadness. There were so many accidents and so much sickness that it cast a shadow over the Christmas cheer.

I suppose quite a few received new in-laws for Christmas. There were some who were married during the holidays and others kept their secret 'til then. Here's to all the newly-weds:

"To you I extend my sincere congratulations."

TOM AND GEORGE

George: "Tom, a merchant the other day asked a youngster why he tied a tin can to the dog's tail and asked why he did it?" Tom: "What did he say?" He said, replied George: "that is where I always tie them; if you know of a better place I'll tie it there next time. You can look from the North Pole to the South Pole, from the East Pole to the West Pole, and you'll not find a better place to get your furniture and house furnishings than here."

May your life be filled with joy and jubilation!"

Special to all when sent me cards —Thanks, a lot. It's nice to be remembered that way.

A number of folks have said they sat down unexpectedly while the ground was covered with ice. But as far as I know there's been only one hurt near here. Paul Ware, the J. F. Ware's son, fell and broke his collar bone. His friends hope he will be O. K. again soon.

Mr. Evans Green is a patient in the City Hospital, Gastonia, following an appendix operation last week. He is the third one of the Green boys (Hope he won't mind being called a boy) to have an appendix operation during the last two years. In fact, he is in the same room and his bed is in the same position as the one occupied by his brother, Grover, in the summer of 1937.

Mr. Wesley Carroll is in a serious condition at his home at the time of this writing.

Mrs. J. W. Carroll has been suffering with a back ailment since Christmas.

QUESTION BOX

What's the Answer? By EDWARD FINCH

WHY DO WE SEE STARS WHEN HIT IN THE EYE?

IT IS NOT really stars we see; it is a blinding light. And that light is not really sight but sensation. Any of the five senses when stimulated artificially will produce the sensation for which that sense is responsible. Thus, when a blow to the eye injures the nerves of the eye it sends to the brain a message of sight. Since there is really nothing there to see, it reacts in a sensation of blinding light.
