

**COMPACT AGRICULTURAL DEPT. MAKES PROGRESS**

The newly established agricultural department of Compact Colored High School near Kings Mountain, N. C., has made considerable progress in the last two weeks according to the information released by M. L. Campbell, director.

Since July 24, several visits have been made to the homes of the students by the instructor to determine the possibilities that the boys have of starting a project or projects and also to observe the farming practices in the community. Opportunities for doing good work in both of these phases of the program are abundant and boys and adult farmers appear ready to cooperate in every way possible to advance agriculture in their communities.

The N. F. A. Chapter was organized August 1, 1938, and has made itself known to the faculty, students and the members of the community.

Work has been done in the farm shop department. This division of the work is destined to be of great help to the school and community. Agricultural students seem to be interested greatly in farm shop jobs and most of them possess the skill and technique necessary to do splendid work in this branch of the training program.

The equipment and material needed by the department has been promised by the County Superintendent of Schools, Mr. J. H. Grigg. This equipment is to be secured when the new high school building is completed this month or the early part of September.

**AS IT GOES**

By Virginia Logan

We the people of Kings Mountain are a strange lot. We go to the mountains and to the seashore in search of beauty and a good time. Little do we realize that we have both the mountains and the sea right here at home — only in miniature form. What could be lovelier and more satisfying than to sit, in the late afternoon, looking across Lake Monticelli as the sun descends and sends its rays over the water and against the rocks on the side of the pinnacle? The citizens of Gastonia and Shelby see the beauty of it and are taking advantage of the good times to be had. No one can blame them — we're glad for them. But it's just a pity that we are too frightened to see the things closest to us and to realize what those things could mean to us.

Someone reminded me of the fact that I seldom mention any names in my column. Not mentioning names is a good way to avoid trouble. However, some people still like to see their names in print. If anything of particular interest happens, tell me and we'll make it into news.

From what I've heard, there is a lonesome atmosphere prevailing at the Mountain View Hotel. The boarders have decided to take things "for better or for worse until death".... Mr. Bill Craig has already joined another rank, expecting to make his home on West Mountain Street. Then, there's Mr. Hendrick's, who will soon be living on Gold Street — in more than one sense of the word.

Kings Mountain has placed a good number of sight-seeing people in New York City lately. Also, a few citizens have answered to the call "Go West, Young Man!". Martha Lou Mauney sent me a card from California the other day, and I'm expecting a couple of cards postmarked New York from Misses Louise Morris and Mary Frances Hord. It seems that they are to visit Mrs. Ivan Rosenthal.

A few weeks ago my hope for the

**"THE RUDDER'S GONE, SIR!"**

Fateful moment — when a ship loses its rudder! Then a great hulk drifts helplessly — and unless aid comes, that ship goes "on the rocks."

There are men who drift at their lives. Is it surprising that these rudderless souls end up "on the rocks"?

I. C. S. students are men who fashion their own "rudders" — out of common sense, determination, and sound, essential training! If you want to come into the Port of Prosperity and Security, then you must get the training you need. Get it "the I. C. S. way" — from textbooks that have been adopted by 25 State Universities — through methods that are individualized to fit your own personal requirements.
