

# 4 STEEL FACTS in one minute

**Platinum and Gems Used in Steel Mills**  
Steel companies buy about \$10,000 worth of platinum and thousands of dollars worth of diamonds per year, for industrial uses.

**Steel Costs Less Than Wood Per Pound**  
Steel, the lowest priced of all metals, is also cheaper, pound for pound, than many kinds of woods.

**U. S. A. Is Leading Steel Nation of World**  
In 1935 this country produced only 3 per cent of the world's steel. Since 1924 the United States has produced 37 per cent of the world total.

**Keeping Track of Orders for Steel**  
Approximately 100 separate printed forms are filled out by steel workers to keep track of the filling of each customer's order.
