

Of Course We Are Proud of Our Schools

AIMS OF AMERICAN EDUCATION WEEK

To put children first; to attach importance to the school as an instrument for the improvement of our democratic way of life; to deepen the interest of parents in their children and in the schools; to quicken the educational consciousness of the community; to emphasize the part education must play in a new social-economic advance; to unite all the forces of the community in a common effort to improve the schools—such are the aims of AMERICAN EDUCATION WEEK. Let every teacher and every layman do his part to make this week a period of great national revival; a period of rededication marked by a strong purpose to go forward to better things.
