A veteran fighter at 26, Winston Churchill was a full fledged cabinet member at 34. Since then he has held several important ministerial posts. During the world war, he introduced the use of tanks, and planned several war campaigns. Once again, in the present conflict,

he has been called upon to serve his country.

Young Autoists More Prone to Reckless Driving

RALEIGH. — In the spring a young man's fancy turns to something more serious than love, according to Ronald Hocutt, Director of the Highway Safety Division. And that "something," Hocutt says, is stepping on the gas—driving at an excessive rate of speed.

Accident records show that nine persons were killed on North Carolina highways last month in cars that overturned, and eight of these nine, all but one of whom were driving, were young men between the ages of 18 and 25.

"Practically every one of these fatal accidents was due to just one thing — excessive speed," the safety director said. "Modern motor cars don't overturn easily, and as a general thing the driver who overturns a car has been guilty of reckless driving and speeding. Young men, as last month's accident record indicates, are the most flagrant offenders on these counts."

"Pointing out that in some instances cars have overturned five or six times without killing or seriously injuring anyone, Hocutt said that it is possible and frequently happens that a person is killed in a car that has turned over only once, and any person whose car turns a flip without killing or at least seriously injuring him is a mighty lucky individual."

"Yet," he added, "there are a good many young men in this state who think their experience isn't complete until they have turned over at least one car."

"These reckless, speed-crazy young drivers," Hocutt concluded, "are among the worst menaces on our highways today. And we sincerely hope that the young drivers' groups the Highway Safety Division propose to organize as a part of its Youth Highway Safety Club will serve to impress young drivers with the dangers of speeding and reckless driving."

Washington, May 28.—The demands of national defense were brought home today to the country's citizens by talk of an immediate tax increase and hints of no new model automobiles after this year.
