PHONES 10-R AND 88 MRS. A. H. PATTERSON.

MEETING OF THURSDAY AFTERNOON BOOK CLUB

Mrs. W. K. Mauney was hostess at a most delightful meeting of the Thursday Afternoon Book Club entertaining at her home on Piedmont Avenue. Daffodils and red and white fall flowers adorned the rooms where the guests were assembled. Mrs. J. S. Norman had charge of an interesting program featuring talks on Summer Trips by Miss Marie Lineberger and Miss Helen Logan. A piano duet by Miles and Ernest Mauney and a voice number by Mrs. E. W. Neal completed the program.

Mrs. R. N. Baird was elected a member of the club.

Delicious refreshments consisting of a salad course and a sweet course was served.

U. D. C. TO MEET

The regular meeting of the United Daughters of the Confederacy will be held at the home of Mrs. P. G. Ratterree, Friday afternoon.

Mrs. P. G. Ratterree, Mrs. S. C. Ratterree and Mrs. Claude Rhyne, will be hostesses.

CHARITY AND THE PHYSICIAN

Do you ever consider the immense amount of Charity work which is done by every physician? Not all that he does along this line is credited to him, and few ever think of him in that light. Many of his patients are able to pay, yet they do not take care of their obligations to him. Do not say that he is a POOR business man, and that if such were not a fact he would sue them. Doubtless the physician in many cases knows he will never be paid, but his love for humanity and sympathy for those in distress dictates that he relieve their suffering. Such unselfish service is often rendered the patient without a thought for the physician's own welfare. We should pay him first, of all our creditors.

Announcing the big
NEW FORD
1941 FORD

In some years, some cars take a big jump ahead. The Ford does that for 1941.

It has jumped ahead in size. It's the biggest Ford we've ever built, inside and out. It's wider. It has a longer wheelbase. Its seating room is wider by as much as 7 inches. It has new wide doors and semi-concealed running boards.

You'll notice also a new beauty, achieved by a skilful blending of mass with longer flowing lines. Larger windshield and windows give better vision all around.

One of its biggest advantages is the new soft ride.

New, slower-action springs give a slow, gentle, gliding movement. A newly designed stabilizer helps absorb road shocks, and maintains balance on sharp curves and in cross winds.

More rapid acceleration to match its familiar speed and power makes this new Ford an even livelier car to drive.

These are only a few of this new car's outstanding features. It represents all the rich experience gained in building more than 28 million motor cars.

Any Ford dealer can give you many good reasons for making this your 1941 car.
