Apple Blight Disease Damages State Orchards

H. R. Niswonger, Extension horticulturist of State College, reports that there has been a severe outbreak of the apple blight disease in many sections of the State. He says numerous injudicious have been received by the College Horticulture Department from orchardists, asking what can be done at present time.

Niswonger says that as a rule, it is advisable to wait until the dormant season and then cut out the blighted twigs and branches, and rub off the blighted fruit spurs when pruning operations are carried out.

"However," he said, "B. G. Leatherman and J. S. Sain of Lincoln County and V. O. Sipes of Catawba County secured 50 to 75 percent control of the disease by spraying their trees at the blooming period with Bordeaux mixture. These men have been applying the bloom spray for the past eight years and have secured satisfactory control of blight during these years. They also cut out the blighted twigs at dormant season."

The usual recommended formula for the bloom spray Bordeaux mixture is 2 pounds of bluestone and 6 pounds of hydrated lime to 100 gallons of water. Mr. Sipes used this formula, but Mr. Leatherman and

How Would You Like To LOSE 15 lbs. of FAT?

How would you like to safely lose some of that ugly fat in a few weeks without risky drugs or inconvenience? How would you like to lose your double chin, bulging stomach and hips AND along with it regain your natural charm and attractiveness.

Weigh yourself today. Get a bottle of Kruschen Salts (a famous English formula). Then every morning before breakfast take one half teaspoonful in a glass of water — eat wisely — cut out fatty meats, butter, cream and rich pastries — go light on white bread and potatoes.

After 4 weeks weigh yourself again and just see if you haven't lost pounds of ugly fat and gained that "Kruschen Feeling" of water, vivacity, more energy and improved health that so often accompany fat reduction.

REFUSE IMITATIONS! Demand and get only the genuine Kruschen (the famous English formula) plain or new effervescent, pleasant, sparkling. Bottle lasts 4 weeks and costs but a trifle. Any drugstore.

Mr. Sain used only 1 1/2 pounds of bluestone in the mixture.

Niswonger says that the secret of this method of controlling the apple blight disease is to apply the spray immediately after the first blossom buds. Since all blossom buds of some varieties of apples, such as Golden Delicious, do not open at the same time, more than one spray is necessary.

THE ARMY'S ON THE MOVE!

ARMY maneuvers on a scale vastly greater than ever attempted in this country are under way and will continue for several months. The scene of these maneuvers is the nine southern states served by Southern Bell.

It will be both a test and training for the army as well as for the civilian population which provides the vital means of communication, transportation and supply.

Essential to the success of these maneuvers is an adequate, dependable system of telephone communication. This the Southern Bell Company is providing whenever, wherever and in whatever amount the fast shifting armies require. This means that the Telephone Company, like the army, is keeping its sources of supply, transportation facilities and man power ready day and night so it can act on the moment. Past years of training and experience in meeting emergencies have already prepared our army of telephone workers for this big task.

It is the Telephone Company's plan to take care of the army's needs with little, if any, serious interference with the public's accustomed use of the service. During these maneuvers, however, there may be occasions when for short periods of time our facilities will be mainly required to meet the army's sudden and unexpected needs. Should this happen in your community, your wholehearted cooperation will be a helpful contribution to the successful advancement of preparedness.
