Town of Kings Mountain, Karl S. Sawyer, Tax Collector.

DON'T BE BOSSSED BY YOUR LAXATIVE—RELIEVE CONSTIPATION THIS MODERN WAY

When you feel gassy, headachy, lousy due to clogged-up bowels, do as millions do—take Feen-A-Mint at bedtime. Next morning—thorough, comfortable relief, helping you start the day full of your normal energy and pep, feeling like a million! Feen-A-Mint doesn't disturb your night's rest or interfere with work the next day. Try Feen-A-Mint, the chewing gum laxative, yourself. It tastes good, it's handy and economical... a family supply costs only 10¢.

FEEN-A-MINT

WE THREE "C" ALL

"We Three" have had loads of loads of fun bringing you all the scoops and scandal about town that we could "C" Since this will be the last Column that we will write for the HERALD we will now tell you who WE THREE are. We are afraid the secret kinda leaked out but maybe there is someone who still doesn't know. We are Clara Mae Gantt, Betty Patrick and Frances Crouse. We hope that there are no hard feelings against us because it was all in fun.

Thanks to Mr. Lynch for never censoring our column. He's one swell editor. To the people who read our column each week and complimented us. Everyone who helped us scrap up scoops. Maybe, if no one is writing a gossip column next summer "We Three" will continue our column. Now for the dirt (dig, dig, dig). It seems Mary Alice Campbell's filling Menzelle's lonely nights Patsy is in Greensboro you know. Susie McGinnis, are you and Marriott getting up an affair? Don't hold out on us...

Did you see the girl Jim Ratterree was with Friday night. She's from Gastonia. Just get him to tell you about her. More fun... We bet Madree is lonely this week while Woodie and Charlie Moss are in Norfolk... or is Jimmy Dickey showing her a good time these nights? If the town seems to be lacking in something after the first week in September — its because "Snooks" got caught in the draft—don't be surprised at the girls' dreary faces. Carl Finger is really running around in circles... you know Het in left town. By the way, what happened last Sunday nite?? we wonder which one backed out when they got to York???? Why? their night will be awfully lonely 'cause "Greek" never ussed it night.

Bobby Mac broke his record on not dating in 11 weeks Sunday night he dated Sue Ruddock! Thanks to the following couples for managing to stick together. You have always been interesting gossip: Eadie and Puff, it all began in the tenth grade, didn't it? It was written in the stars for Alice Betty and Ben... sweetest couple ever... and HOW LONG HAVE Jones and Hazel been going together?? If Ernest would just turn his car loose it'd go right over Phenix way... wouldn't it Doris?

Jo seems to be following in Eadie's footsteps cause she and Bill started in the tenth grade... Ladd and Butch must have the real thing... Even tho' Lib Plonk has been away for most of the summer, Jim has remained faithful. Jimmy Willis and Vera may not be news, but at least its gossip... eh?

George Mauney and Rachel Smith seemed to be doing O. K. Sunday night... and so did Fay and George Allen... these Georges are getting around... eh George Lattimore? You have us in circles... dating Martha McClain, Marie Phifer AND Marian Arthur... Kinda surprising... seeing Gogie Rawles and Billy Ruddock together Monday night...

Everyone had a grand time at Ladd's and Billy's dance Friday night... and speaking of dances we are looking forward to the one this Friday night... Billy Throneburg... people have lived thru love before... it's terrible you have such an awful case... We imagine it would be awful to be in love with someone out of town... especially as far as Charlotte... Tough luck kid!!

(Editor's note: If you get hold of this column before it is printed... we'll put you out of your misery FOREVER... Vivian dated Wilson the other night... Ben Goforth and Gene Maths said "Boys State" was really swell... Meek?, did you have fun Sunday night? Just wondered... Pete Gamble, you and Knub keep up the good work...

J. C. Bridges, you must have it bad... going all the way to Georgia to see Rachel McClain... Whew!!!! This College separation, which is so tough on us all... will be just as tough on Gogie and Buck. Well, we guess this is farewell. If anyone starts another Gossip Column, we wish them the best of luck.

Again, we want to tell you how much fun this has been... and we hope, we leave NO hard feelings behind. You may have gained a little knowledge but as for us its "College." We hope we'll be with you next summer. So Goodbye...

Three out of four executives in the steel industry started at production jobs in the mills and worked their way up.

Legumes Do Best If Seeded In September

In order to allow the crops to make enough fall growth to cover the land during the winter, cold weather legumes should be seeded in September "by all means," says E. C. Blair, Extension agronomist at State College. In addition to doing a better job of covering the land during the winter, the agronomist said, legumes seeded in September will also be ready to turn under at least 30 days earlier next spring than if they are planted later.

As a means to conserving seed, grain drills may be used to advance in seeding legumes. Fifteen pounds of hairy vetch or 20 pounds of Austrian winter peas to the acre will give excellent stands if a drill is used, the specialist declares.

Merit Awards Teach Useful Farm Lesson

N. C. State College officials did not realize it at the time, but when they awarded certificates of meritorious service to three outstanding agriculturists, by pure coincidence they taught one of the essential for successful farming.

J. W. Kiker of Anson County was recognized for his work in corn breeding, T. J. W. Broome for his service of 30 years as farm agent in Union County and for his promotion of lespedeza, and A. O. McEachern of New Hanover County for developing fine dairy cattle.

The work of these three men represents a complete program and cycle for successful agriculture, according to A. C. Kimrey, extension dairy specialist of N. C. State College.

Explaining, he pointed out that Mr. Kiker developed corn which is the backbone of livestock feeding. Mr. Broome promoted the use of lespedeza in North Carolina, representing hay and grazing, both highly essential for success in dairying. Finally, Mr. McEachern on his Eastern Carolina farm developed fine dairy animals to consume all of these feeds, converting them into cash and good living for farm people.

This practical lesson might be put to good use in the State's rapidly expanding dairy industry, the State College specialist pointed out. Not only is it a good lesson for the large dairyman, he added, but for the family owning just one cow. Plenty of home-grown feeds will aid in combatting rising prices. Kimrey went on, affording larger margins on the sale of milk and other dairy products.

State Gains In Race For Poultry Honors

North Carolina has moved into 14th place among states in the number of chickens raised on farms this year, helped by a 20 percent increase over the past 10 year average, reports C. J. Maupin, extension poultryman of N. C. State College. This compares with a nation-wide jump over the average for the past decade of only 9 percent, according to figures just released by the Agricultural Marketing Service of the U. S. Department of Agriculture.

A part of this large increase in production for the State is due to the growing interest in commercial broiler production. Federal figures show North Carolina to be one of the nine states now producing 5,000,000 or more broilers annually. At the same time, Maupin said, Tar Heel hens are laying more than production hit 61 million, an increase of 3 million eggs over the same month a year ago. Similarly, production for the first seven months of this year hoared 23,000,000 over the same period in 1940.

Other states are marching along in this Government-aided drive for larger poultry numbers. The latest Federal report says "the number of chickens raised on farms in 1941 will exceed all past records." The number of layers in farm flocks on August 1 was the largest for the past eight years.

Better feeding and management practices boosted the average hen's production to an all-time high in July, and despite record-breaking production, egg prices have continued to be the highest in 12 years.
