It Takes Both, War Bonds and Taxes, to Win—Victory Tax Special Direct Levy Asked to Help Meet Heavy War Costs

WASHINGTON, D. C.—Approximately 50,000,000 American workers began to make an added contribution to the War cost this month in the form of a 5% Victory tax.

For many millions of Americans the Victory tax and the 1943 income tax are the first direct levies to be made by the Government to meet the staggering War costs. And it will take both... taxes and War bonds... to provide the supplies and materials to win the War and the peace afterwards.

The Treasury Department estimates that the Victory tax will raise approximately \$2,000,000,000. Every person receiving more than \$12 per week must pay the Victory tax upon that part of his income over and above the \$12. For example, a married man with a salary of \$50 per week, with two dependents, would make only a net payment of \$1.00 per week after allowance for a 4% war credit.

The Government has made every effort to make the impact of the new tax as light as possible. The law, in effect, provides that in the case of married persons whose sole income is from wages or salary, 40 percent of the Victory tax paid (up to a maximum of \$1,000) plus 2 percent for each dependent (up to a maximum of \$100) may be used as a credit against whatever Federal income taxes the individual may owe at the end of the year—provided he

has purchased certain War Bonds, or paid old debts or paid life insurance premiums equal to the amount of this credit. In the case of single persons this credit will be 20 percent of the Victory tax paid (up to a maximum of \$500). Should the Victory tax credit exceed the individual's Federal income tax, the unused portion of the credit may be refundable to the taxpayer.

With the Victory tax, the 1943 income tax, and all other taxes paid by individuals, the average American will have more money with which to buy War Bonds than he has ever had before. Here are the statistics which explain that statement:

In 1940 the total income payments made to the American people amounted to about 75 billion dollars. In that same year the total personal taxes paid, Federal, State and local, were roughly 2.5 billion dollars,

some encouragement by the State G.P.A. which says: "Because the work has to do with supplying food—which is the home front's ammunition—we want the farmers of the State to realize they will be given every consideration by the local War Price and Rationing Boards."

The U. S. Department of Agriculture has announced an order selling all new farm machinery and equipment which was PRODUCED in wheelbarrows and distributors stock on October 21.

But—Sacrificing Non-Essential Calls Helps Clear Lines for Vital War Calls

You bet it's pleasant to talk with friends over the telephone, just as it was pleasant to take those long Sunday afternoon rides when we had plenty of tires and gasoline.

But social calls must be handled over the same local telephone facilities as war calls. There is a definite limit to the number of calls these facilities can handle at the same time, and when more calls are made, some must wait.

With telephone equipment already burdened with war calls, non-essential calls are a delay necessary calls, so we are requesting your voluntary cooperation to reduce unnecessary calling.

Under normal conditions we would expand our facilities to care for the increased volume of calls, but we cannot do that now because the needed materials are going into war weapons.

So won't you help by making fewer local calls? And when you must make a call, won't you please try to make it as short as possible?

NORTH CAROLINA WEEKLY WAR ROUND UP

CARRY THAT CARD: All North Carolina men between the ages of 18 and 45 who are subject to classification under the Selective Service Act that after February 1 they will be required to carry classification as well as registration cards at all times. Failure to do so may result in prosecution in the Federal courts and the responsibility of securing a classification card which states that the registrant has been placed in 1A, 1A, 4F or whatever it may be rests with the individual. If for any reason he has not received a classification card, or has lost the one sent him, he should immediately tell his local board.

WARNING: Automobile owners were cautioned this week that much damage may result from the use of anti-freeze solutions containing chloride and other salts. Materials being used in some anti-freeze solutions corrode parts of the auto engine, water pump and radiator. Presence of salt in an anti-freezing solution may be tested by placing a few spoonfuls of the compound in an iron skillet or dish (do not use aluminum) and allowing it to boil slowly on a stove until the liquid

Building and flying model planes is one of the first projects which Air Scouts undertake. Air Scouting, newest program of the Boy Scouts of America, is open to boys 10 years of age and over. In a short course a broad experience is obtained up to the point of actual flight training.

has evaporated. A substantial residue of salt provides evidence; the compound is a brine solution which should be removed from the radiator.

OPEN FOR REPAIR: Good news to all farmers in North Carolina is a new amendment of the War Production Board raising the quota for the production of repair parts for farm machinery from 120 percent of the average annual net sales of repair parts during 1940 and 1941 to 150 percent. W.P.B. says the change is the result of its determination that adequate supplies of repair parts be available for farmers in 1943, particularly since the production of new machinery has been drastically curtailed. It is expected that every machine on a farm that can be used to drainage will be repaired and put into good working condition, and to accomplish this, more than ordinary quantities of repair parts are being made available.

NO SANTA CLAUS TODAY: Any North Carolina employer who pays the 5 percent Victory Tax on behalf of his employees, without deducting it from their pay envelopes, must first obtain priority approval from the War Labor Board, for WLB has ruled that the tax payment by the employer constitutes a wage or an pay increase, and thus requires approval under wage and salary stabilization.

NO RUBBER: North Carolina has responded in an extremely anticlimactic manner to the ban on pleasure driving, according to the State Office of Price Administration. A survey shows an overall drop of about
