NORTH CAROLINA WEEKLY WAR BOUND UP

Costs Paid
Maximum prices on beef, veal, lamb, and mutton sold at retail will not become effective until May 11. LVA suspended ceilings scheduled to go into effect April 15 in order to be sure that the prices were in line with other living costs.

Case Corn Prices
A ceiling price of five cents per bushel higher than present maximum, established April 14, will be effective until September 30, 1943, according to OPA, which acted up on instructions from stabilization director Hynes and food administrator Davis. There will be no further increases in corn prices during the 1943 market season. The price raise is designed to relieve the present acute market shortage of corn for livestock feeding and industrial processing.

New Rules On Selective Service
Chief effect of the recent changes in selective classifications is the elimination of dependency deduction except for 1. Those who maintain bona fide homes with children, 2. Those whose induction would cause extreme hardship to a wife, child or parent, and 3. Those with dependents who are necessary to and regularly engaged in agriculture.

Men formerly classified in 3-A and 3-B who had been deferred because of dependents will be reconsidered. Class 3-B is eliminated entirely. A child born after Sept. 14, 1942 is not recognized as a "dependent" in classifying a registrant in Class 3-A. The new classification 3-D will contain all men whose induction, in the opinion of their local boards, would create extreme hardship or privation for a dependent wife, child, or parent.

Farmers Who Sell To Retailers
A farmer who sells butter, lard, or any other rationed food to a retailer must collect ration points for the sale, just as he has done to consumers since March 29, according to OPA. All farm sales must be made at current point values and stamps collected must be turned in to local ration boards with a report made on OPA Form

2-200. This form will be available to all local boards during the last week in April. The first report is due during the first 15 days of May and will cover sales made between March 29 and the end of April.

Women's Land Army
A women's land army of about 50,000 city and town women will be recruited as a part of the U. S. Crop Corps, to help meet the farm labor shortage. Ten thousand of these women are expected to enroll for year-round farm work and a one month or more. Three hundred out of 50,000 for seasonal work for thousand women will be placed by country agricultural agents in short time emergency jobs on farms women who can spare weekends a few days, or a few weeks, women who wish to contribute their services should await the local call.

Sugar For Canning
Sugar for home canning of 1942 fruit crops will be available to housewives at approximately the same basis as last season. No deduction of blue point stamps will be made from War Ration Book two for canning sugar. Details of the program will be issued within the next few days.

Ceilings On Fresh Vegetables
Retail ceilings for cabbage, carrots, lettuce, peas, snap beans, spinach, and tomatoes will be established beginning April 22 through the use of uniform mark-ups over the retailer's net cost according to OPA.

For each vegetable except cabbage, the retailer will determine his ceiling by multiplying his net cost by 1.25. On cabbage, where spoilage is greater, the mark-up is 1.65 for independent retailers having an annual volume of \$250,000 or less, 1.54 for chain retailers with an annual volume under \$250,000, and 1.50 for any retailer with an annual volume over \$250,000. Retailers will determine their ceilings each Thursday by multiplying their mark-ups to the net cost of the vegetable based on the largest single purchase of the preceding week.

Exempt Small Sales By Farmers
A farmer who sells not more than \$75 worth of foods per month to country shippers or to consumers is exempt from price control recently established for seven fresh vegetables. If the farmer is a country shipper he is subject to the price regulations.

Revised Tire Regulations
Tire rationing regulations have been tightened to prevent bootlegging and violations of tire inspection requirements. Changes ordered by OPA are: 1. Tire inspection records must be kept in the vehicle while it is in operation. 2. Tire inspectors will report aerial irregularities to the local rationing board. 3. If an applicant does not have a

tire inspection record showing an inspection requirements compliance, the local board may grant his application if an inspection was made 60 days before the application was filed. 4. Dealers need not hold tires turned in for 30 days as now required if, before that time elapses, the tires are examined by an OPA representative and their disposal authorized.

Fuel Oil For Canning
Housewives are assured of enough kerosene or kerosene for their home canning. OPA has authorized the granting of fuel oil rations for operation of oil-burning cook stoves used for home canning purposes. Local rationing boards have been instructed to issue necessary ration coupons if the consumer or asks for ten gallons or less. If more than ten gallons is needed the ration will be determined according to the number of hours the stove will be used.

Onion, Potato Maximum Raised
Maximum prices on dry onions and white potatoes of the late 1942 crop for sales during May and June 1943, will be ten cents higher than in April, the OPA has announced. The change in price is designed to spread available supplies evenly over the next three months.
