

County AAA Committees Handling Wheat For Feed

In an effort to ease the current shortage of livestock and poultry feed, AAA committees in 49 North Carolina counties have obtained a total of 224 bins from the Commodity Credit Corporation for storage and handling of federally owned feed wheat, according to H. A. Patton, State AAA executive assistant. More than 200 of these bins already are in operation and the others are being erected.

The bins, he said, are being made available to county committees by the CCC and will be used later in the year for storage of soy beans and grain and other purposes. The bins will be supplied to any county committee upon application to the State AAA Office.

Operation of these storage bins by county AAA committees fills a need of farmers who do not have facilities for handling a carload or other large amounts of feed wheat, the AAA official said. Handling of wheat by county committees, however, makes it possible for feeders to obtain wheat in small quantities and on short notice. The bins are manufactured at Troy, N. C., and if shipped by rail must be accepted in carload lots of nine. Each bin has a capacity of 900 bushels.

Since release by Congress of an additional 100,000,000 bushels of wheat for feed, a total of 150 carloads, or 300,000 bushels, has been

ordered in North Carolina. The wheat is available in carload lots at a price of \$1.00 per bushel for April delivery, but due to the acute feed situation, county committees and dealers are limited in the amounts they may have on hand. Handling charges by county committees average about five cents per bushel.

Will Americans Be More Tender With Their Money Than Lives of Their Sons

Washington, D. C. — A blunt challenge—whether Americans will be more tender with their money than with the lives of their sons—confronts U. S. citizens as they prepare to meet the appeal of the government to put an additional 13 billion dollars into the fight in the next three weeks.

American dollars which run off to some easy shelter to hide while American boys are dying to defend our cities and towns from destruction and invasion will face a rising demand from all classes of patriotic citizens to come out and fight.

Millions of workers who now are buying War Bonds regularly out of current income must lead extra money to their government during the Second War Loan campaign (which started April 12).

In recognition of the spirit of sacrifice which is sweeping over the land as our troops swing into offensive action in Africa and await the signal for a landing in Europe, the Treasury Department is offering a series of government bonds to fit every pocketbook.

No matter whether Americans buy the familiar Series E Bonds or 2 1/2 per cent bonds or 2 per cent bonds or tax certificates, they will be doing their part to make the Second War Loan drive a success.

Consumer Spending Too High. Consumer spending in 1942 was

much too high to meet the war situation of 1942. Last year more than \$2 billion dollars of our soaring national income went to food, the desires of Americans for clothes, recreation, foods and luxuries. As these items grow scarcer, more of our income must be diverted from such expenses into government bonds.

During 1942 millions of our fathers, sons, relatives and friends were in training here and abroad. Some were already in action. Casualties were beginning to pile into every community. War Bonds became a vital link between the home and fighting fronts.

Today sacrifice has become a way of life for America's fighting men. Civilian spending on the 1942 scale must go out the window if the home folks are to attempt to match the heroism of our boys at the front.

Not every American can take his place in a bomber or in a foxhole or on a fighting ship but he can fire away at the enemy by lending money to the government.

The War Food Administration has asked the wheat flour millers to increase their production by 25 percent this year. Wheat flour is a major source of nutrition.

Overcrowding Of Chicks Causes Poultry Losses

One of the major errors in poultry raising is the tendency of poultry raisers to overcrowd their chicks. Overcrowding is the leading cause of the poultry losses reported at N. C. State College. The college's research indicates that the overcrowding of chicks is the leading cause of their death. The college's research indicates that the overcrowding of chicks is the leading cause of their death.

THE 2ND WAR LOAN DRIVE IS ON!

America...you've got to get tougher!

AMERICA—Let's be frank about it... so far, many of us back home have been fighting this war from an easy chair. Many of us have bought War Bonds out of extra cash, out of money we didn't miss too much. We haven't been really tough with ourselves.

But this war is a hard, down-to-earth war. And many of our boys are dying in it.

We've got to buy MORE

So your government asks you to buy Bonds and more Bonds—to get really tough with yourself. We're asking you to give up the frills and "extras."

We know how human it is not to make sacrifices until the crisis drives us to it. In England they felt the same way until the bombs started falling.

Bombs are such persuasive things. But just as persuasive ought to be the spirit of our brothers, sons, husbands.

If you could see

Look at it this way—suppose you had a magic carpet that could take you to Africa and New Guinea. Suppose you could hear the groan of American boys wounded, and American boys dying... Now, how many Bonds would you buy?

That kind of war

THEY... are dying. And they will keep on dying until we drown the enemy in an over-

whelming torrent of bombs, bullets, gas, tanks, planes, ships, and shells.

That's why we're asking you, in this one month of April alone, to lend Uncle Sam 13 billion dollars—by buying War Bonds. 13 billion of extra dollars—over and above any buying that you'd be doing anyway!

A lot of money

Of course, 13 billion dollars is a lot of money. It'll take sweat and tears to raise it. It'll mean going without now. But also—it will mean savings now—to buy later. It'll mean giving up everything you can't spare with your conscience, so that we, us, our children, can have a better, more decent place to live in when this war is won.

The drive is on

So during this month of April, if someone calls on you to ask you to buy War Bonds in this 2ND WAR LOAN DRIVE, will you buy to the limit—and then buy more?

Better yet, will you go to your Bank, Post-office, or wherever you're used to buying your Bonds—and buy NOW? Will you lend extra money this month? Money that can hasten the day of Victory? Money that can help to save American lives.

Money buys money

Remember, what you're really buying with your money is still more money. For after all, these Bonds are money! Money plus! Every

dollar you put into War Bonds will bring you a dollar plus interest.

So the more Bonds you buy the better for you. Americans—Get Tough—with yourselves—for your country.

Here are 7 different types of U.S. Government Securities—Choose the one that suited for you

United States War Savings Bonds—Series E: The perfect investment for individual and family savings. Give you back \$4 for every \$3 when the Bond matures. Designed especially for the smaller investor. Dated 1st day of month in which payment is received. Interest: 2 1/2% a year if held to maturity. Denominations: \$25, \$50, \$100, \$500, \$1000. Redemptions: any time 60 days after issue date. Price: 75% of maturity value.

2 1/2% Treasury Bonds of 1964-1969: Readily marketable, acceptable as bank collateral, these Bonds are ideal investments for trust funds, estates and individuals. A special feature provides that they may be redeemed at par and accrued interest for the purpose of satisfying Federal estate taxes. Dated April 15, 1943; due June 15, 1969. Denominations: \$500, \$1000, \$5000, \$10,000, \$100,000 and \$1,000,000. Redemptions: Not callable till June 15, 1964; thereafter at par and accrued interest on any interest date at 4 months' notice. Price: par and accrued interest.

Other Securities: Series "C" Tax Notes, 1/2% Certificate of Indebtedness; 3% Treasury Bonds of 1930-1932; United States Savings Bonds Series "B"; United States Savings Bonds Series "G."

What The Sailor Smokes

Sailors have a reputation that is pretty much all their own. "Health but" for instance is Navy slang for a good health. The Navy man's word for a new recruit, and "smoking lamp's lit" is what they say aboard ship if smoking is permitted.

A sailor has only four pockets in his uniform—compared to the conventional 12 pockets in a dress suit, coat, trousers, and vest—but in one of those pockets you're pretty sure to find a pack of cigarettes, for whether it's in the open jaws of an aircraft carrier or the cramped quarters of a submarine, the sailor wants to be sure he's ready when the word "smoking lamp's lit" is passed around.

As for what the sailor smokes—well, it's that he's got different from the men in Uncle Sam's other fighting forces. For with men in all branches of the service—Army, Navy, Marines and Coast Guard—the favorite cigarette is Camel according to sales records from the service man's own stores—Post Office Service Stores, Ship's Stores, and Canteens.

Under new Post Office regulations Sailors, Marines, and Coast Guardsmen get a better break than some of the men in the Army in the matter of gifts of cigarettes from home. You can send men in all branches of the Navy, Marines, and Coast Guard a carton of their favorite cigarettes, no matter where they're stationed, in any part of the world—but due to restricted shipping space you can only mail cigarettes (or packages of any kind) to a man in the Army if he's stationed in the United States. However, if you CAN send your man in the service a gift of cigarettes, you can be sure they'll be welcome. Cigarettes are not only recognized as a considerable factor in maintaining morale, but surveys among the service men themselves have shown that a carton of cigarettes is their favorite gift from home. And tobacco dealers point out that you're sure to please him if you send him the brand that is the service man's favorite—CAMEL.

Manufacturers of bale wrappers made of cotton will receive an indemnity of 40 cents on each wrap per instead of 35 cents.
