Troop One Scout News

This is the second column in this series about Troop One. We hope you enjoyed the one not long ago. Our Troop has its charter for 1944 and we are getting settled for many good times from now on. Now that we have two Patrols in our Troop we have a Chart to prove which can do better in the coming year. It is a map with a line drawn between Kings Mountain and Tokyo (9300) and such things as being present, advancing in rank, collecting waste paper and many other things count so many miles toward Tokyo. The first patrol to get its flag there wins the contest. It is great fun. Our Troop has really been collecting that "waste paper" and sending it to the government. Tuesday we carried several hundred pounds to the official warehouse to add to the great amount we already have there. Please save all your waste paper for the Scouts.
