

State College Plans To Form Homecoming

(Both Current, N. C. State College)
Some of our great hymns and ones that we should know and enjoy are (1) "Faith of Our Fathers", (2) "God of Our Fathers Whom Always We Praise", (3) "The Lord Is My Shepherd", (4) "Dear Lord and Father of Heavenly Host", (5) "Our God, Our Help in Ages Past", (6) "Now the Day is Over", (7) "Lead, Kindly Light", Seven hymns — one for every day in the week.

Gleaming health is the big benefit of the vitality and magnetism that shine out of tea is called "Beauty." And what you eat has an amazing amount to do with your health.

Pure (or better, scraped) potatoes and other root vegetables as thick as possible. Heat of all, cook them in their jackets. Valuable nutrients are near the skin.

Cut carrots and other long vegetables lengthwise. Their cells are long and lose of the nutrient quality.

Don't throw away all your green beans until you've had a few to chop into green salads, cottage cheese, scrambled eggs, soups or fried potatoes.
Best tips are delicious cooked and served as greens. And they have more vitamins and minerals than the beans themselves. The tops of the early beans are especially tender. The tops should be fresh and green and the beans smooth and firm ridges. The early beans are usually sold with the tops on at this season of the year.

"ATLANTIC CITY, N. J.— In a history-making demonstration of national unity, 16 national and international organizations—many commonly supposed to have conflicting interests—adopted a statement of policy assuring recognition of joint responsibility for continued production and for export to preserve American industry.

Among those coming together to reach agreement were the National Association of Manufacturers, A. F. of L., C. I. O., National Labor Relations Board, and the United Farm Workers of America.

SOME VEGETABLES NOW POINT-FREE

Tomatoes, corn, asparagus, beets, leafy greens, spinach, blackeye peas, and garbanzo beans have been added to the point-free list of processed foods through June 30, the Office of Price Administration has announced. Points have been reduced on spaghetti sauce, soups, grape and tomato jams and preserves; apple, grape, mint and plum jellies; bakers' jellies and fruit butters. Points have been increased on cranberries and cranberry sauce; tomato juice in large containers, canned or bottled dry varieties of beans (excluding soy, blackeye and garbanzo); tomato catsup and chili sauce, raspberry and strawberry jams and preserves. Reductions were made to move out last year's stocks before new supplies are available in great volume.

BUTTER POINT VALUE REDUCED

The ration point value of creamery butter has been reduced from 16 to 12 red points a pound, the OPA has announced. Margarine has been lowered from six to 2 points per pound. The new values are effective through June 2, 1944. This reduction was made possible by seasonally increased production.

LUMBER INDUSTRY NEEDS MEN

More than 60,000 men are needed for lumbering and pulpwood jobs before next fall if 1944 requirements are to be met, according to a statement from the War Manpower Commission. Efforts will be made to switch farm labor to the woods as the harvest season closes and to recruit other seasonal workers. Lumber stocks are at an all-time low and the estimated 1944 minimum requirements of 25 1/2 billion board feet must be met almost entirely from the 1944 output.

BARN-BARNYARD EQUIPMENT QUOTAS

Through the Barn and Barnyard Equipment Industry Advisory Committee, WPB has been advised that despite some shortages in the available supply, 1944 production quotas of barn and barnyard equipment will be reduced.

SEASONAL INCREASES IN POULTRY PRICES

Consumers will pay an average of

two-thirds of a cent more a pound for poultry over a period of one year under an OPA ruling providing for seasonal increases in prices of chickens and other fowl. The new prices will continue through June of this year, and from January through June of next year. From July through December of this year the ceiling prices will revert to the unadjusted base prices as listed in Table A of the Poultry Regulation. Premiums to the producers, which will be passed on at all levels of distribution, range from a low half-cent a pound in January to a high 2.20 cents a pound in May.

CHILD-CARE SERVICE AVAILABLE

The Office of War Information reports that approximately 20 million dollars' worth of extensive child-care services will be available during the fiscal year 1945 to meet the needs of working women with children. The Federal Works Agency is now financing the following services in connection with nursery schools, or child-care centers: information centers for parents, health care, a visiting teacher or nurse to work closely with parents on needs of children enrolled at centers, and some transportation of children between their homes and the centers. Communities where women with children under two years are needed for war work now may apply to FWA for funds to establish group care for these children.

TO REDUCE HOG PRICES

Ceiling prices on hogs weighing more than 250 pounds live weight will be reduced 75 cents per hundred weight on and after May 15, 1944, the OPA said. The action is designed to discourage the use of corn and other essential grains in bringing hogs up to heavy, uneconomical weights.

SELL CORN TO GOVERNMENT

Farmers in the surplus-producing counties of the corn belt urged by the War Department, the War Food Administration to sell corn to the Government to assure continued production of critical war materials, the Department of Agriculture announced. The appeal is for corn not required for the farmers' own needs or the needs of feeders in their own communities.
