

MADISONIA NEWS

Mr. Marion Dean has just returned from Lincoln Hospital where he has been for treatment.

Mrs. Clarence Smith took her two-year old daughter to Gastonia hospital for operation Saturday. The child's father is in service and is in a hospital in Australia.

Mrs. W. D. Green of Margrace has returned from Shelby hospital where she has undergone an operation.

Rev. C. B. Hubbitt and family Mrs. Bertha George and Eppie Cooke were dinner guests Sunday of Mr. and Mrs. Hubbert Byers.

W. M. S. met Monday evening at 7:30 with Mrs. J. J. Jenkins with 9

members present.

News to Mr. and Mrs. E. B. Cooke a son, July 2.

Miss Beatrice Wilson returned home after spending a week with her parents, in Valdese, N. C.

Mrs. Baxter Smith received news today, July 17, from the Red Cross that her son, Robert Smith, was wounded in battle in France.

Jack Hubbitt visited friends in Boiling Springs Monday.

Sought to Beautify Hair

The early Greeks smeared their curly locks with a specially prepared ointment and sought the power of the sun to turn their hair golden. In the 15th century Italian women looked to the moon to "thread their hair with beauty." It was a fad among the fashionable women of that period to sleep all day so that they might wander through their moonlit gardens seeking this special beauty treatment.

Air to Cool Motor

Air must circulate freely around a motor. Air surrounding a motor installed in a small tight compartment, or even in a very small room, may become too hot to cool the motor.

EXHAUSTION leads to Headache

Don't let headache decide the amount of collection. As the throbbing of pain, take Capudine. It is already already dissolved—ready to act—ready to bring relief. Use only as directed. See the box.

WHAT FARMERS WANT WHEN THEY BORROW

Here's the sensible way to look at loan cost. You borrow to make a profit. The cost of the loan is meaningless unless you consider how successful the farm operation for which you borrowed turned out. Promptness in getting the money, freedom from red tape, absence of special fees and charges, no stock purchase required, helpful service and cooperation right down the line—these are the factors that make bank credit cheapest in the long run. Try it yourself and see.

Bank Credit is the best Farm Credit

NORTH CAROLINA WEEKLY ROUNDUP

NATIONAL FARM SAFETY WEEK

As a part of the National Farm Safety Week program, July 17-23, the Department of Agriculture offers some simple safety rules for women and girls doing farm work for the first time. In handling machinery read and follow instructions; stop machine for all adjustments and repairs, which horses from machine before making adjustments; wear overalls with no loose parts to catch in machine; speak quietly to animals when going close to them; wear gloves for rough work; when sun is hot, wear a broad-brimmed hat; dark glasses when needed; and if skin is tender use skin lotion. To be sure you can do heavy work safely, get a medical check-up. Move a heavy object instead of stretching; in lifting use knees and keep back straight; clean, slight cuts and scratches with cover with sterile material; wear whole, clean stockings; and well-fitted shoes with low, level heels. Eat three well-planned meals each day. When perspiring freely, use one eighth to one-fourth teaspoonful of salt to each glass of drinking water. When hours are long and the work is hard, eat a mid-morning and mid-afternoon snack.

KEROSENE HAS GONE TO WAR

Kerosene use on the home front must be reduced wherever possible this year, the Petroleum Administration for War warns, because of the tremendous and increasing consumption of kerosene in vital war fuels. Diesel engines use a fuel a portion of which has been diverted from the manufacture of kerosene. Diesel fuel oil, made of approximately one-third kerosene fractions, powers bulldozers, Diesel trucks, caterpillar tractors, construction machinery, dock and yard locomotives, every American submarine and nearly 100,000 invasion barges. PAW calls on us to use sparingly of kerosene—also known as coal oil, range oil, lamp oil, burning oil and stove oil.

SEND WORK CLOTHING

More civilian work clothing for men and boys is indicated by a War Production Board order requiring manufacturers of work clothing to produce during each quarter beginning July 1 at least 90 per cent of the number of garments manufactured during the third quarter of 1942. Items to be produced are bib overalls, dungarees, work shirts, one-piece work suits, pants, overall jackets and blanket lined coats. In line with recent national legislation, manufacturers' prices for the basic constructions of denim (used widely in manufacture of overalls) have been raised one cent a year, the OPA announced.

SEND CALLS FOR NURSES

A call for qualified nurses to work in Veterans Administration hospitals to help provide adequate care for disabled veterans has been issued by the Veterans Administration. Hospitals are classified in three groups: general medical and surgical, orthopedic, and convalescent. Nurses work eight-hour shifts, six days per week, with rotating shifts and additional compensation for overtime. Living accommodations may be obtained at the hospital. Unemployed graduate nurses (those possessing and who are registered) should write to Medical Director, Veterans Administration, Washington, D. C. A campaign to recruit 50,000 nurses for the Army and Navy at the rate of 1,000 a month for the Army and 500 a month for the Navy has been announced by the War Manpower Commission. Nurses in the Army now have the full authority of their officer rank.

8 Billions in Minerals Mined in U. S. in 1943

WASHINGTON — Reporting that \$2,000,000,000 worth of minerals, an all-time record, was dug, scooped and pumped from United States soil in 1943, Interior Secretary Harold L. Ickes expressed concern over dwindling resources and called for measures to assure the country "its share of the world's minerals at fair prices."

The secretary made public year-end estimates by the bureau of mines, headed by Dr. R. R. Sayers. Metallic products for the year were valued at \$2,000,000,000, a 6 per cent gain; mineral fuels, \$4,500,000,000, a 12 per cent gain; other non-metallic minerals, \$904,000,000, a decline of 14 per cent. This decline was mainly in sand, gravel, stone and cement and reflected the reduction in construction activities. Aluminum production increased more than 75 per cent from 421,106 short tons in 1942 to about 920,000 tons in 1943.

Soldier Draws a Blank With His Note to Donor

AKRON, OHIO — Somewhere overseas is a disillusioned soldier. Behind his sadness is the story of workers in a war plant here who took up a collection to buy cigarettes for the boys overseas. Some of them included their names with the smoke.

The soldier who received his was much impressed with the name of the donor—"Fay Willoughby." He was so impressed that he wrote back a thank-you letter, ending it with a romantic p.s. "Who knows? This note may be from your future husband."

Back to the romantic doughboy came the answer—from a Mrs. Willoughby, who kindly explained that Fay was married to her and made a very nice husband.

The Capital Building in Washington is one of the largest buildings in the world. It is 12 stories high. There are water tunnels all down as 750 feet below New York City.
