Indiana's Well House

Forty thousand Indiana University alumni are in their possession of a national treasure, the remains of the well house of Indiana, and recall the well house within the Campus Well House.

In the hearts of Hoosiers burns remembrance for a national treasure, the remains of a well house, a graceful arch of the well house, built in the eighteenth century.

Back the Attack! Buy More Than Before

April Showers. April showers may bring flowers, but they also bring soil erosion which can be prevented by such soil conservation practices as contour planting, cover cropping, and other practices on which your county agricultural agent can advise.

Poisons Banned. Poisons never should be applied on cauliflower or broccoli, and should not be used on lettuce, kale, Swiss chard, or beet tops in less than 30 days before those vegetables are to be eaten.

Share Lemon Flavor

When using lemons in a way that does not call for the rind, pare off the yellow portion carefully and put it through the meat chopper (using the finest plate). Then dry the grated peel, place in a tight container, and use as a pleasant flavoring when a fresh lemon is not at hand.

TROOP ONE NEWS

Three weeks ago our troop had one of the best camping trips in our history. We went to Lake Adger which is a very large and beautiful lake 20 miles west of Rutherfordton. We left Thursday afternoon and came back Saturday night. Mr. Carl Davidson, our Scoutmaster, took his car and a small outboard motor. There were ten Scouts who went on the trip. While we were there, we fished, went swimming and boating and explored the thick woods around the lake. All the boys helped in the work and we had a swell camp. Everyone enjoyed the trip.

This Monday night everyone in the Troop went on a "winter camp" to Carroll's Springs. After we ate we played Scout games and sat around the fire.

At court of honor on Thursday the following boys from Troop One made advancement: Tenderfoot: Carl Moss and Harvey Hamrick. Star: Charles Blanton, Handicraft: Hunter Warlick.

Don't forget to save waste paper for the Scouts.

Local Girl To Represent Coker College

Coker College will be represented by twelve girls in the 1945 "Who's Who Among Students in American Universities and Colleges," according to an announcement by Acting President Donald C. Agnew.

Among "Who's Who" girls is Doris White, a member of the senior class. Miss White is a daughter of Mr. and Mrs. C. G. White.

Representatives are chosen from the two upper classes by faculty recommendation. Selection is based on character, leadership, scholarship, and potentialities for future social usefulness.

Managany sawing tree

Just as the oak may be distinguished from the hickory tree in temperate zone forests, the mahogany tree has characteristics which distinguish it from other tropical trees. One is its long, clean trunk, sometimes extending 60 to 80 feet to the first limb. Another is its gray-brown bark, fairly smooth for the most part and in ridges or large individual scales.

Lt. Cmdr Hayes Sent To Pacific Coast P. O.

Mrs. Carol L. Hayes, of the Bethlehem community, has received word that her son, Lt. Commander P. R. Hayes, has been assigned to the navy post office at San Francisco where he will be in command of 50 officers and 2,000 enlisted men and women who handle the incoming and outgoing mail of overseas Navy men.

Lt. Commander Hayes has been serving with the Navy in Washington since receiving his commission. He formerly served with the Navy for six years and later was employed in the Charlotte post office, re-entering service during this war. His wife and two sons plan to go west with him.

Shaping up NOW

—for the day when "Highways are Happy Ways" again!

Tomorrow's "dream bus" is much more in a dream. It is shaping up today, in full scale models that will soon be translated into gleaming fluted metal, curved plastic glass, new type chairs built for long-trip relaxation — many features of comfort and efficiency we can't even talk about now.

Super-Coaches like this are coming, sure as Victory. Greyhound will pioneer in their design and will make all possible speed in their construction—without relaxing, for one moment, its full-time job of carrying war cargoes. These starting new buses will not only replace equipment overcrowded by heavy wartime travel — they'll give eleven million returning Service men and women (and travel-hungry millions at home) a more delightful way to see and enjoy "The Amazing America."

"We wanted no Profit from the war... and we have made none"

H. S. DUNBAR, President
(Quoted from speech before Southern Bell Association)

Though the Southern Bell Telephone Company is now doing the largest volume of business in its history its earnings are at the lowest rate they have been in many years.

This condition has been brought about by the fact that for a number of years the cost of operating the business has increased at a greater rate than have revenues. And while operating costs have been steadily rising, rates charged for telephone service have been reduced.

Users of long distance service alone are saving millions of dollars annually as a result of the rate reductions made during the past several years.

Though operating costs have greatly increased, and telephone earnings are less, telephone users are getting more service for less money now than ever before.
