

**First Church**  
**Methodist**

The Rev. L. G. Gentry, pastor of the First Church, Methodist, announced on Monday, April 1, 1945, that the church will be closed for the week ending April 15, to determine whether the church would become affiliated with the Methodist, Wesleyan Methodist, or Nazarene church groups.

The latter states:  
 "The official board of First Church decided on Monday, April 1, 1945, in a business meeting, that the church had come for our congregation to the same organized church group, such as the Methodist, Wesleyan Methodist, or Nazarene."  
 "We have not been affiliated with any denomination since we were dropped from the Methodist conference a few years ago. Since then we have been under much criticism. The church has now come to give one of the three church groups a trial. We want to do this in order to preserve our work in this community."  
 "We are planning to begin work on our new building in the next few days, just as soon as a lot can be purchased. The present Sunday morning, April 15, 1945, as each member will be allowed to cast a vote for the church of their choice. In praying that God will provide a lot for us to build on."

Cottage cheese and mince or fig equal portions, moistened a little with orange juice, make a delicious filling or top spread for fresh ginger bread or ginger spice cup cakes.

**The War Production Board**  
**Repeals War, I. R. 100-1**

W. H. Shaley, chairman of the War Production Board, announced today that the War Production Board has advised the repeal of the certificate of allocation system for the production of steel for the war effort.

The repeal of the certificate of allocation system for the production of steel for the war effort, the War Production Board announced today, is a result of the fact that the steel industry has been able to meet the war effort's needs for steel for the war effort.

**For Peace**  
 Prosperity in America is the first step in the direction of a lasting peace. This prosperity ought to spread, as fast as it can, to other countries. It is in America, however, where men have the key to prosperity and the United States must lead the procession to high living standards through open competition . . . the only way to obtain a more abundant life, for ourselves or others.

At first thought, some people may not agree that prosperity has anything to do with peace. But they will convince themselves if they will think back. Troubles that built up to this present war were economic troubles. Hitler and Mussolini both climbed to power over ruin; ruined fortunes, ruined hopes, ruined lives. They got a following by promising people relief from misery.

What is the solution?  
 People will be patient, and content themselves to wait for solutions to ordinary political problems, but they will do desperate and violent things when hungry; when their families need food. Prosperity helps to maintain peace, and (as I said in the first sentence) prosperity in America is the first step. The reason is plain. Uncle Sam is the world's best customer.

When we think about the importance of the United States in world affairs, these simple figures stand out boldly: We have only 7% of the earth's population and yet we buy 40% of all the raw materials in the world from which manufactured goods are produced. When wheels are turning in America, markets get active to the four corners of the earth.

Looking to America.  
 When American manufacturers are busy, and American factories hum, the tin mines of Malaya get busy, the rubber plantations of Sumatra swarm with workers, and the Caribbean countries disengage shipping cables, chicks and bananas. Our prosperity is the world's peace. But why should it be so? Can we do something about it? I listen to my own country.

Foreign lands prosper when they call freely to America. They call to America when jobs are plentiful and good here, when most Americans have money to buy what they want. Jobs are plentiful and good, and workers prosper, then business is expanding. Business expands when investors are confident of future investments. They could see such opportunities only if they were not afraid of loss.

Secretary Hines.  
 Very few business men in the United States have any idea today that they will be able to expand in peacetime periods. Most of them know they can't afford to expand if the present-day 6% excess profits tax remains in force. It was enacted as a war emergency measure. I do not say it ought to be repealed at this hour. But we ought to make certain now that it will not outlive the war.

Revenue measures are the heart of all laws to repeal. These laws are good. But unless there is a business get another after the war, business would be unable to expand even before the expansion. Business men want to give peacetime jobs and employment now. When Congress makes a reasonable law to increase effective with the war, world peace will have the best chance of being made. It will have to be done this year.

*Their very* **LIVES** *depend on you!*

**DO YOU SPARE WHAT YOU CAN WEAR**

Less war time of necessities in our own countries depend on the filling of their depots need for clothing.

The demands of America's armed forces and civilian needs are so great that only a small amount of new clothing can be spared for overseas relief.

But all of us can spare some serviceable used clothing—to provide the 100 million pounds that must be collected this month for that purpose.

In the clothes closets and attics of America's homes is enough useful, spare clothing to help care for the 100 million men, women, and children—in Europe alone—who have given all but their lives toward the same lasting peace we all are fighting for.

Let's get it out—and send it off—NOW!

Kings Mountain Collection Depots are the following:  
 Women's Club  
 Central School  
 West End School  
 East End School

Take your clothes to the collection depot nearest your home.
