

The Navy's Arctic breathing device conserves a great amount of body heat and moisture lost through normal breathing.

A new anti-submarine destroyer will be named in honor of Vice Admiral John Sidney McCain, World War II hero.

Navy personnel inhaling air at 70 degrees below zero through the Arctic breather will actually take in plus 64 degree air.

600 Chicks Lost In Fire Sunday

Around 600 seven-week-old chicks were lost when fire destroyed a building early Sunday morning at Ward Feed & Seed Store test farm located near Dixon school, according to an announcement by Hal Ward, manager of the firm.

The loss was partly covered by insurance. Other chicks located in nearby buildings were saved when the fire was checked, he said.

More than three million farms—well over half the nation's total—now gross less than \$1500 a year. Per capita income of persons on farms last year amounted to a little over \$900, as compared with \$1569 for non-farm persons.
