Like KEEPING OUR HOUSE COOL IN A VACUUM JUG!

"WHAT a difference in comfort since we insulated our attic with

Gold Bond ROCK WOOL

"Now we get a good night's rest in bedrooms that before were like ovens. The whole family has more pep, cats and dogs feel better. Housework, too, is easier." Our customers often volunteer comments like this.

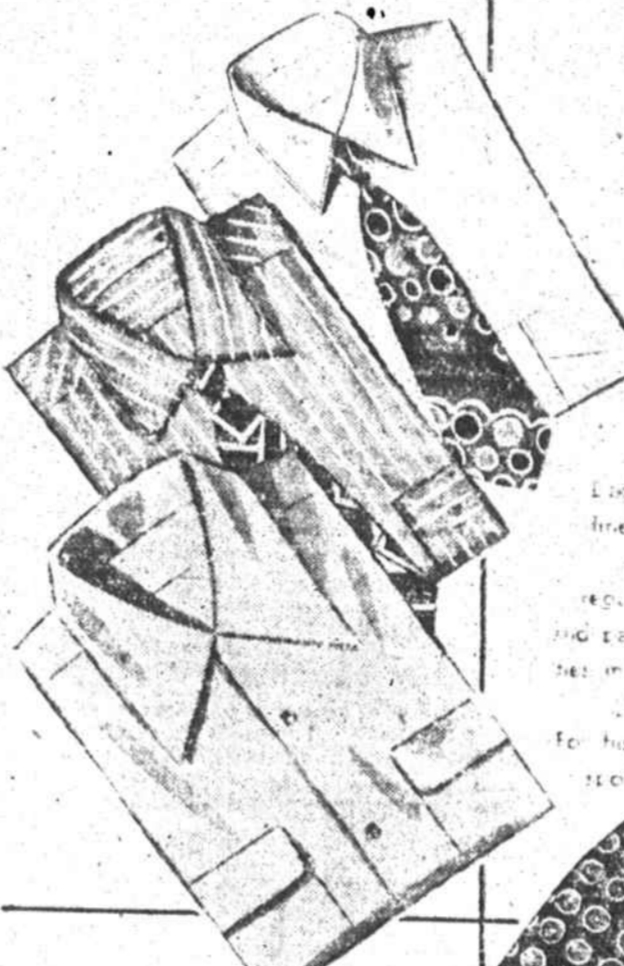

The reason is that Gold Bond Rock Wool insulation blocks the passage of heat in much the same way as the insulated walls of a vacuum jug.

In winter, the same principle works to keep precious warmth inside. The resulting fuel savings soon pay back more than the cost of the insulation and continue year after year.

Find out today how little it costs to install this comfort and economy in your home.
