Uncle Sam Says

July 4 is the day when we as a nation celebrate Independence. Though the going, at times, has been rough we have persisted in upholding the ideals of freedom and security. And you can maintain individual independence, the freedom from financial worry, if you are investing regularly in U. S. Savings Bonds. With half of 1949 already gone how much money have you salted away? There is but one way for you to celebrate future independence—and that is by saving your money today. In ten short years you will receive \$4 for every \$3 you put into them. U. S. Treasury Department
