

State College Hints To Farm Homemakers

(By Ruth Current, State Home Demonstration Agent)

To preserve the fresh, new look of good grooming, to lengthen the life of lovely woollens, follow these few easy rules:

BRUSH often. Dust particles, often invisible to the eye, settle in creases, pocket crevices, under-lapel areas, cuffs and pleats, and set up an abrasive action injurious to the fabric. A brisk once-over with a soft, firm-bristled brush will do a lot to lengthen a garment's life. Mud spots brush out easily after drying. Powder stains may need a damp sponge.

LET THEM BREATHE. Hang each

wool garment on a well-shaped hanger after each wearing. Never pack wool garments together tightly in a closet. Free circulation of air helps rid the garment of wrinkles because the lactic wool fibers spring back to their normal shape after the day's strain.

TREAT STAINS PROMPTLY. Every minute counts in stain removal. Take the stained garment to a reliable cleaner without delay and tell him what the stain is so he can treat it before it "sets." If you try to clean it yourself use only those cleaners which you know are reliable and use only those with which you have had experience.

IF YOU'RE CAUGHT IN THE RAIN Dry away from heated radiators or hot sun. Heat dries out wool fibers,

makes them brittle. After the garment is dry, brush it thoroughly.

HOME PRESSING. Correct pressing between trips to the cleaners will add seasons of extra wear. Here's how: Always use a pressing cloth, a firm, well-washed canvas or several thicknesses of old sheeting. Never apply the iron directly. A too-hot iron will scorch and break wool fibers. Place wool garment on a smooth, well-padded board, cover with dry pressing cloth, sponge cloth with warm water; apply iron lightly and stop pressing before material is quite dry. Place garment on a well-shaped hanger and let it dry in natural lines. Press hems, collars, lapels and other heavy parts first, starting on the wrong side. Slip paper under seam edges when pressing to avoid

leaving marks on the right side.

1950 FORD

IT'S HERE FRIDAY AND 50 WAYS NEW!

White sidewall tires available at extra cost.

WITH THE EXCLUSIVE NEW 100 H.P. FORD

ITS QUIET WHISPERS QUALITY

It's the quiet of new super-fitted pistons, new "hushed" timing gear, new fan designed for better cooling at slower, quieter speeds. And what power! It's a full 100 horsepower wrapped up in V-8 design that makes you master of any road. It delivers more power than any other car anywhere near Ford's low price and sells for less than most conventional "sixes." And Ford offers a Six, too—an advanced Six with 95 horsepower.

NEW SOUND CONDITIONING

New "sound conditioning" in floor, doors and body panels insulates Ford's "Lifeguard" Body against road noises. More extensive body insulation and sealing in 41 areas give added interior quietness.

There's a **Ford** in your future
...with a future built in

NEW "HUSHED" RIDE

Ford's famous "Mid Ship" Ride is now so quiet you can talk in whispers. So smooth (with its great team of "Hydra-Coil" and "Para-Flex" Springs) that it virtually erases every bump.

NEW QUALITY FEATURES

New quality is easy to find in the '50 Ford. You find it in the new push-button door handles... in the new rotary door latch that needs only a feather-touch to open and close securely... new sparkling upholstery colors.

NEW DRIVING COMFORT

Not only does the 1950 Ford offer you more hip and shoulder room than any other car in its field—it offers you the long-lived driving comfort of a new foak rubber front seat cushion over new non-sag seat springs.

But see it for yourself. Drive it so you can feel and hear the difference. And price it and see how much less it costs than any other really fine car.
