No Homeland, But Urge to Study Lives On

Some 2000 refugees are enrolled in European universities, while the U.N. International Refugee Organization seeks homes for them. At the left, refugees use a basement library in a bombed-out building. At the right, a student cooks in his tiny bedroom-study-living room.

Although European corn borers and other night-flying moths can be attracted by a special type of electric lamp and killed with electric traps, U. S. Department of Agriculture entomologists suggest that farmers avoid becoming too enthusiastic about this possible method of control until its practicality is fully proved by further research.

Generally speaking, the protein in one cut of beef has practically the same nutritive value as that in any other cut from the same animal.
