**Three Are Hostesses At Series Of Parties**

Leading among the social events of last week were the series of lovely bridge parties given by Mrs. J. C. Smathers, Mrs. G. W. Mauney and Mrs. B. B. Speldel at the Country Club. For the three occasions, the club was beautifully decorated with a profusion of fall flowers. Large bowls of shaded chrysanthemums with special emphasis on large white chrysanthemums were effectively utilized at vantage points throughout the club, making a perfect setting for the parties. One eye catching arrangement in the formal dining room was achieved with sprays of pomegranata berries and pomegranates.

The hostesses served frozen turkeys, individual cakes, cheese fingers and cups of nuts with coffee as the opening feature of the party. A flat arrangement of bright hued chrysanthemums and autumn leaves provided a festive centerpiece for each of the tables.

The first affair was given Thursday afternoon with guests present for seven tables of bridge. Four progressions of contract bridge were played. When tallies were added, Mrs. J. C. Bridges proved to be the high scorer with Mrs. O. P. Lewis the recipient of the runner up prize.

On Friday afternoon the hostesses entertained another group of friends for several tables of bridge. When guests arrived, covers were laid and a delicious dessert course was served.

Mrs. J. O. Plonk, Jr., a recent bride was remembered with a gift by the hostesses.

Tables were rearranged for bridge, rook and canasta.

**Navy Recruiter Says Vacancies Exist**

Walter Machowski, ENISS, U. S. Navy recruiter in Shelby, announced today that vacancies exist for immediate enlistment for general service as well as for special programs in the U. S. Navy.

"There is a continuing need by the Navy for high school graduates who may be enlisted in a special category to be assigned to a Navy service school after recruit training. Among these Navy service schools are the Navy aviation school of fundamentals, clerical schools, engineering, commissary, electronics, hospital corps, etc.," he said.

Urgently needed are men who may qualify as electronic technicians. Machowski emphasized that a high school diploma was not mandatory for the electronics school, but that a keen interest in radio, electricity, mathematics and general science, and approximately a high school education in these subjects are helpful in the selection of men for this school.

Men who are enlisted under this program are sent to a basic school and in some cases are advanced from one to three grades following graduation, he said.

Machowski's recruiting area covers the counties of Spartanburg, Union, and Cherokee in S. C., and Cleveland, Rutherford and Polk Counties in N. C. The main office is located in the basement of the post office building in Spartanburg, S. C.

Machowski's itinerary is as follows: On Mondays and Fridays from 11:00 a. m. at the Cleveland County court house, upstairs, in Shelby.

The main office in Spartanburg is open every day Monday to Friday from 9 a. m. until 5 p. m., and on Saturday between 9 a. m. and 12 noon.

**Survey Shows Free Trees Not Wasted**

Those free trees being given for the asking to 4-H'ers, Future Farmers, and adult farmers aren't being wasted, according to John L. Gray, State College extension forecaster.

Last summer extension forestry personnel selected at random

and visited 10 per cent of those people who had received free tree seedlings paid for by the Champion Paper and Fibre Company, the N. C. Pulp Company and the International Paper Company.

The survey revealed that 97 per cent of the white pine and shortleaf pine seedlings furnished to 4-H'ers were planted and 85 per cent were living.

Champion is again offering 350,000 white pine and 150,000 shortleaf pine seedlings for distribution through county agents to youngsters in the western Piedmont. This is twice the number the company furnished last year.

The North Carolina Pulp Company furnished 650,000 trees to 4-H'ers last year, of which 93 per cent were planted and 74 per cent living. The pulp company is making available a like number this year.

International Paper Company donated 520 trees to adult farmers in 39 counties last year. The survey showed that 97 per cent of these trees were planted and 80 per cent were alive. International has 500,000 trees available for free distribution to adult landowners this year.

Interested 4-H'ers, Future Farmers adults should contact their local county agent for order blanks and details on obtaining these seedlings.

The United Kingdom imported about 12 per cent of the total value of United States farm exports in 1951.

In this Buick SPECIAL you get a valve-in-head high-compression Fireball 8 Engine that can pour out a wealth of the thrilling power you ever held rein on—more power per dollar than you'll find elsewhere.

Number Two is ride—the way you go—the comfort and steadiness and luxury of your travel.

Every Buick has big soft coil springs on each wheel to cushion your way—and an unwieldy torque-tube that firms and steadies your ride. Yet these are just two of the fifteen

Buick ride features that cost, literally, more than a million dollars to engineer.

Then there's style, there's room, there's visibility, there's handling ease—all part of your travel — all helping to make the difference between good going and great going.

But price is very much part of the picture, too—what you pay for what you get.

So when you add in the big horsepower rating you get in a Buick, plus the extra thrill and thrift of its Fireball performance...

When you measure the inches of room, count up the many hours of comfort through the years, check off things like durability and solid satisfaction and high trade-in value...

And when you put this total against the price of a Buick—you're going to say, "Man! That's great going all the way!"

Come in and see us today or tomorrow, won't you?
