

Mountaineers To Face Cherryville In First Conference Test Friday

Game Scheduled For Cherryville Field At 7:30

With two non-loop scalps under the belt, Kings Mountain high school's football warriors are scheduled to run up against strong Western (AA) Conference opposition for the first time this season at Cherryville Friday night.

The Mountaineers will face an un-scored on Cherryville high Ironmen eleven also with two victories in the pouch. Coach Frank Snyder's crew topped Taylorsville 26-0 in the opener on September 4 and downed Lincolnton 19-0 last Friday night at Lincolnton.

Coach Everette Carlton's charges have moved the ball well in the past two games, both on the ground and in the air.

The Mountaineers have rolled up 508 yards rushing in the two games this season and have scored five touchdowns on the ground. In the air, Kings Mountain has added only 106 yards but three pass plays went all the way.

Quarterback Ollie Harris found his receivers against Mt. Holly last week, completing five of eight tosses.

Gene Patterson, left halfback, hit his running stride last week against the Hawks, with the best rushing average to date. Fullback Richard George dropping after an outstanding running game in the opener. Mt. Holly set its defense to stop the bulldozing plunger last week and the halfbacks took over the running department.

Coach Carlton's forward charges continued to show improvement over the opening encounter.

The city did do some patchwork and widening on Church street for the short distance from the old city limits line to its intersection with Cleveland avenue, Mayor Bridges acknowledged.

Regarding the paving of Landing street, minutes of the board of commissioner meetings show that Landing street (fronting on property largely owned by Mayor Bridges) was approved for paving by the Still administration in actions on September 10, 1951, on October 8, 1951, and on August 7, 1952.

MEMO TO ADVERTISERS

for advertising, too!

What a fix we'd all be in without those standards of measurement for the goods you buy and sell. Imagine the confusion, waste and doubt in business transactions if we didn't have accepted standards of weights and measures—known values.

We believe it is just as necessary for us to tell you what you get for your advertising dollars, in terms of known circulation value, as it is for you to do business with your customers on the basis of recognized standards. That's why this newspaper is a member of the Audit Bureau of Circulations.

WHAT IS THE A.B.C.? The Bureau is a cooperative and nonprofit association of 3450 publishers, advertising agencies and advertisers in the United States and Canada. Organized in 1914, A.B.C. brought order out of advertising chaos by establishing a definition for paid circulation, rules and standards for measuring, auditing and reporting the circulations of newspapers and periodicals.

WHAT A.B.C. DOES FOR YOU. At regular intervals one of the Bureau's large staff of experienced circulation auditors comes to our office and makes a thorough audit of our circulation records. He has access to all of our books and records to obtain the FACTS that tell you what you get for your money when you advertise in this newspaper.

WHAT A.B.C. REPORTS TELL YOU. The circulation FACTS obtained by the A.B.C. auditor are condensed in easy to read A.B.C. reports which tell you: How much circulation we have; where the circulation goes; how it was sold and many other FACTS about the audience we provide for your sales messages. Make your advertising investments on the basis of this audited information. Ask for a copy of our A.B.C. report.
